It is among the oldest of the world's great cities—its history spanning nearly two millennia—and one of the most cosmopolitan. By far Britain's largest metropolis, it is also the country's economic, transportation, and cultural centre. The City of London Corporation provides local authority services for the area. It also supports and promotes London as the world's leading international financial and business centre. The City works in partnership with local communities to increase skills, employment and opportunities, enhancing the city's culture, history and green spaces for all Londoners.

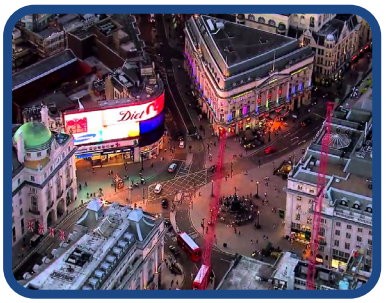

It is headed by the Lord Mayor, an international ambassador for the City and UK financial and business services, a role separate from (and much older than) the Mayor of London.
