4th International Conference on

Vaccine R&D Congress

February 21-22, 2022 | Singapore City, Singapore

https://www.meetingsint.com/conferences/vaccineresearch

Invitation

Dear Attendees,

Meetings International presents 4th International Conference on Vaccine R&D Congress scheduled to be held from February 21-22, 2022 in Singapore City, Singapore. The conference will bring together leading scientists, early-career researchers to share their perspectives and gather specialists from these interdisciplinary fields to discuss necessary measures needed to develop a new generation of powerful tools for synergistic development in the field of sensors. Through a progression of encouraging plenary talks, inspiring keynote lectures, workshops, industry-sponsored symposia and exhibitions, the conference provides new information about the use of latest technologies and building new links between disciplines enables discussion and new collaborations. We assure our attendees return to their place with the self-belief to improve their abilities and outfitted with certified approaches to work with us.

Sincerely,

Operating Committee

Singapore Attractions

Explore Singapore

Singapore, city, capital of the Republic of Singapore. It occupies the southern part of Singapore Island. Its strategic position on the strait between the Indian Ocean and South China Sea, complemented by its deep water harbour, has made it the largest port in Southeast Asia and one of the world's greatest commercial centres. The city, once a distinct entity, so came to dominate the island that the Republic of Singapore essentially became a city-state.

Singapore known variously as the "Lion City" or "Garden City," the latter for its many parks and tree-lined streets—has also been called "instant Asia" because it offers the tourist an expeditious glimpse into the cultures brought to it by immigrants from all parts of Asia. While predominantly Chinese, it has substantial minorities of Malays and Indians.
