

EuroSciCon

4th Edition of World Congress & Exhibition on

Vascular Surgery

March 28-29, 2019
Rome
Italy

Theme:

Advancements & key-innovations in the treatment of Venous diseases

Invitation

Welcome to Rome, the Eternal City, and experience the vascular science illuminated as never before. EuroSciCon is proud to host the 4th Edition of World Congress & Exhibition on Vascular Surgery, March 28-29, 2019 in Rome, Italy. The theme of the conference is Advancements & key-innovations in the treatment of Venous diseases. Vascular Surgery 2019 will provide an unprecedented opportunity for vascular surgeons of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite surgeons, professors, pharmacologists, and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome.

With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the Vascular Surgery Conference is the perfect venue not only to dive into your particular vascular interests but also to expand the scope of your knowledge. 23 tracks are devoted to subjects such as vascular trauma, venous surgery, various vascular diseases such as Abdominal Aortic Aneurysms, vascular malformations, acute ischaemia, mesenteric ischaemia, congenital diseases of vasculature, as well as various surgical techniques including vascular bypass grafting, renovascular surgery, techniques of open vascular surgery, vascular imaging and anesthesia for vascular surgery.

The Organizing Committee has done its best to set up a framework that we think will allow for a creative interplay of ideas. All we need now to convert the extensive program on paper to an active and vibrant Vascular Surgical forum in person is your active participation.

EuroSciCon

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

EuroSciCon

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

EuroSciCon

With over 25000+ vascular surgeons and pharmacologists accessing the website, Vascular Surgery 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Vascular Surgery 2019 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives
Nurture connexions
Agenda format which incorporates ample Q&A time
Partake in our revamped exhibitor expo sessions
Meet and listen to the relevant clients
Unprecedented growth creating an unparalleled market place

March 28-29, 2019

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

2019

Who'd be attending?

4th Edition of World Congress & Exhibition on Vascular Surgeryplays host for the Multinational organizations, entrepreneurs across the globe, the researchers and academicians. Prominently Vascular Consultants, Investigative Surgeons and Professors, Regulatory Professionals, Pharmacogenetic Professionals, Laboratory Directors and Chemists, Scientists and surgeons and others who stay plunged in learning and practice of the science of Vascular Biology

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Vascular Trauma
- Venous surgery
- Vasular diseases of Lowe Limb
- Carotid artery diseases
- Vascular diseases of upper limb
- Abdominal Aortic Aneurysms
- Thoracic Aortic Vascular surgery
- Thoracoabdominal Aortic vascular surgery
- Surgery for veins and lymphatic diseases
- Vascular Imaging
- Vasular Malformations
- Acute Ischaemia
- Renovascular surgery
- Mesenteric ischemia
- Congenital diseases of vasculature
- Lymphedema
- Venous insufficiency
- Vascular bypass grafting
- Techniques of open vascular surgery
- Anesthesia for vascular surgery
- Lower limb amputations
- Endovascular Surgery
- Applications of Vascular Surgery
- New Approaches in Vascular Surgery
- Recent Advances and Development in Vascular Surgery
- Fundamentals of Vascular Surgery
- Atherectomy
- Balloon Embolectomy
- Angiosarcoma
- Rheumatoid Vasculitis

2019

About Destination Rome

ROME, Caput Mundi during the Roman Empire, capital of Italy since 1870, home of the Catholic Church and the Italian government, is placed on the banks of the Tiber, there where the river, running weakly among the seven hills, creates vast meanders which originate little plains. Located inland about 27 kilometers (17 miles) from the Tyrrhenian Sea, Rome is the capital city of Italy. Within Rome's enclave is Vatican City. The seat of the papacy of the Roman Catholic Church, Vatican City has been recognized as an independent state by the Italian government since 1929.

The ancient and historic parts of Rome prove truth to the nickname that Rome is an "Eternal City," forever holding on to its origins and legacy. Divided into two regions, the sprawling outer city is changing with suburban growth. The historical center is a small area, located on the eastern bank of the Tiber River and contains many monuments of Rome's past greatness. The city is an unparalleled repository of monuments from all periods in European history.

The center of Rome is compact and wandering the ruins on foot is a great way to see the city. Street life is vibrant and constant. The architectural design is consuming, and close proximity of ancient sights make for a comfortable and convenient walk. For instance, the Colosseum is approximately one-and-a-half miles from the Spanish steps. One route travels by the Forum, Piazza Venezia, and several churches, passing through charming neighborhoods

As for Rome's climate, it's nearly central location in Italy gives the area a temperate climate throughout most of the year. Technically classified as a Mediterranean climate, Rome has cool, wet winters and warm to hot, dry summers with rare fluctuations of extreme temperature and precipitation changes.

Rome is serviced by two international airports. Leonardo da Vinci, commonly known as Fiumicino, handles most scheduled flights and is about 29 kilometers (18 miles) southwest of the city. Ciampino is about 14 kilometer (nine miles) southeast and is used for charter flights.
