Webinar on

Biosensors

ONLINE

23 JUNE 2021

MEETINGS INTERNATIONAL

Company Registration No: 201524282R

28 Maxwell Road, #03-05 Red Dot Traffic

Singapore (069120)

Phone /WhatsApp: +44-1792-680005

Oral Session 1	
Oral	**Title: Development of Biosensor for Surra (Trypanosoma evansi) based on protein approach using differential pulse voltammetry method** Dr.Wardhana April, Balai Besar Penelitian Veteriner, Jalan RE. Martadianata No. 30 Bogor 16114
Oral	**Title: Challenge to meet the market need for faster diagnosis in health care: an interdisciplinary approach to biosensors** Mrs.Laure Abensur Vuillaume, CNRS, France
Oral	**Title: Discrimination of red blood cells of different pathological states by statistical analysis of physical parameters, obtained with biosensing technology during microcirculatory** Mrs.TIEYING XU, Université Paris-Saclay, ENS Paris-Saclay, CNRS, France
Oral	**Title: A Recent Development of Sensor Technology – Biosensor Application in Medicine, Health and Safety using Bioelectronic Technologies** Dr Yuvaraja Visagathilagar, RMIT University and University of Melbourne, **Australia**
Oral	**Title: Agro-industrial African oil palm residue reuse for the development of an optical biosensor based on Carbon dots for BSA detection.** Dr. Juan Pablo Arango, GIBEC Research Group, Life Sciences Faculty, Colombia
Speakers Slot available	
Keynote Oral	Will be updated
