**Conference Hall: Wien-3**

**10:00-10:20**

**Introduction by Moderator**

**10:20-10:55**

**Keynote Presentation**

**Title: Investigating organic-anorganic hybrid materials with natural compounds for wound dressings**

**Maja Somogyi Skoc, Fibres and Textile Testing University, Croatia**

**Networking & Refreshment Break 10:55-11:15 @ Foyer**

**11:15-12:00**

**Special Session**

**Title: G.I.T immunology**

**Jean-Marie Poffé,** Nutrition Cellulaire, Belgium

**Workshop**

**12:00-12:45**

**Title: Microstructure of genetically improved quinoa (*Chenopodium quinoa* Willd)**
**Sonia J Zanabria G,** National University of Saint Augustine, Peru

**12:45-13:30**

**Title: Synthesis and characteristics of a moleculalry imprinted polymer with an antibiotic template based on polyvinylalchohol (PVA)**
**Ramin Zibaseresht,** AJA University of Medical Sciences, Iran

**Poster Session (13:30-13:45) @ Foyer**

**P-01**

**Title: Novel BODIPY-Pt NRs nanoconjugates in vitro antimicrobial photodynamic inactivation of selected bacterial and fungal species**
**M Thatyana,** University of the Witwatersand, South Africa

**Lunch Break 13.00-14.00 @ Restaurant**

**Conference Adjournment**
