

EuroSciCon

World Neuroscience & Neurology Conference

May 11-12, 2020
London UK

Theme:

Explore the Innovations in the field of Neurology and Neuroscience

EuroSciCon

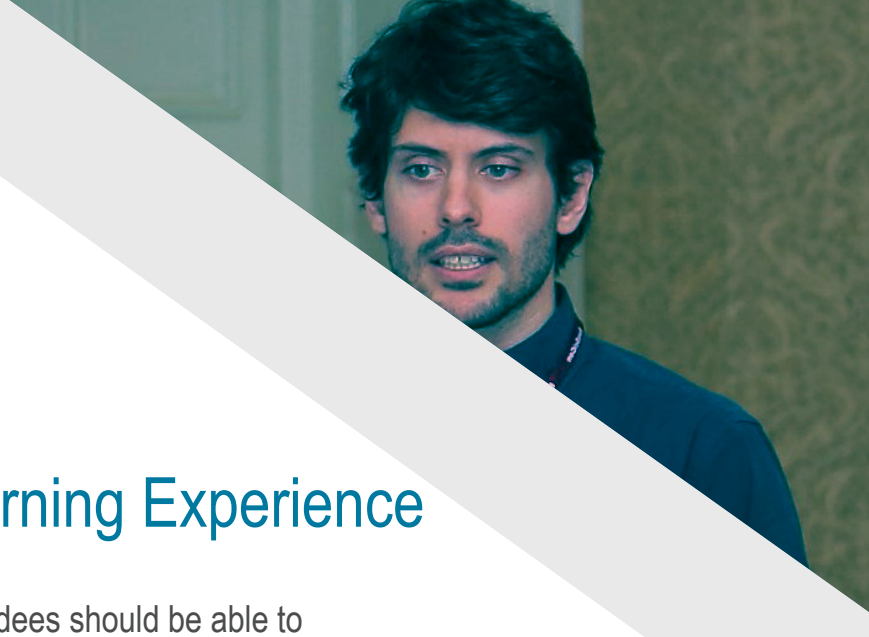

World Neuroscience

2020

Invitation

London, the capital city of United Kingdom, stands on the River Thames and is located southeast of the island of Great Britain. London covers an area of 1579 square kilometres and according to 2016 statistics, Greater London's population was estimated to be 8.63 million. London is a leading global city excelling in the fields of arts, commerce, education, entertainment, Fashion, finance, healthcare, media, professional services, research and development, tourism, and transportation. The Euroscicon will be organizing the world neuroscience and neurology conference 2020 which is going to be held on May 11-12 in London,UK focusing on achievements of neuroscience.The EuroSciCon will be organizing the Neuroscience 2019 which is going to be held on February 20-21, 2019 in Sydney, Australia, focusing on achievements on Neuroscience. The theme of this year's meeting is Exploring the Modern Trends & Innovation in Neuroscience Research for Wellbeing", which will provide an international platform for discussion and sharing the emerging research in the field Neuroscience.Neuroscience 2019 will provide an opportunity for all stakeholders working on Neurology, Alzheimer's disease and Dementia to talk about their work. Neurocognitive disorders will congregate renowned speakers, principal investigators, experts, neurologist's and Dementia researchers from both academia and health care industry will join together to discuss their views and research. The conference will be comprised of sessions by world class experts in the field of neuroscience and neurology. In Neuroscience 2019 conference international symposiums, B2B

EuroSciCon

A Transformational Learning Experience

- After participating in this meeting, attendees should be able to
- Discuss emerging issues in Neurology and Neuroscience
- Discuss and apply recent research findings related to Neurology and
- Neuroscience
- Reflect on the place of critical distance in Neurology and Neuroscience .

London UK

EuroSciCon

World Neuroscience 2020

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us:

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref

Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

EuroSciCon

With over 25000+ Neurologists & Neuroscience experts accessing the website, Neuroscience conference 2019 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fueling better outreach of the work and profile.

Neuroscience Conference 2020 Salient Attributes:

Robust on-line publicity for all the speakers and organizing committee members
Career Guidance Workshops for students and early career researchers
Accepted Abstracts will be published in various indexed journals
Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref Creation
of speakers and abstracts pages in Google
Opportunity to publish full Manu Scripts in our Open Access Journals

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

EuroSciCon

World Neuroscience 2020

Who'd be attending?

The EuroSciCon will be organizing the Neuroscience 2020 which is going to be held on may 11-12, 2019 in London UK, focusing on achievements on Neuroscience. The theme of this year's meeting is Exploring the Modern Trends & Innovation in Neuroscience Research for Wellbeing", which will provide an international platform for discussion and sharing the emerging research in the field Neuroscience.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 17 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society, Institute of Biomedical Science (IBMS) and British Society. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Neurology
- Neuro-Oncology
- Central Nervous System
- Neuro Imaging
- Neuro Toxicology
- Neuro Surgery
- Pediatric Neurology
- Neuro Cardiology
- Neurological Disorder Treatments
- Neuro Immunology
- Robotic Neurosurgery
- Autonomic Neurology
- Brain Stroke
- Behavioral Neurology
- Neuro Muscular Disorders
- Central Nervous System
- Neuro Epigenetics
- Neurogenomics
- Clinical Neurology
- Multiple Sclerosis
- Neuropsychiatry
- Mirror Neuron
- Neurology Nursing
- Clinical Trials And Case Reports
- Neuro Virology

EuroSciCon

See your work PUBLISHED

in one of our related journals

- Journal of Neurology and neuroscience
- Journal of NeuroPsychiatry
- Insights in Neurosurgery

About Destination London

London, the capital city of United Kingdom, stands on the River Thames and is located southeast of the island of Great Britain. London covers an area of 1579 square kilometres and according to 2016 statistics, Greater London's population was estimated to be 8.63 million. London is a leading global city excelling in the fields of arts, commerce, education, entertainment, Fashion, finance, healthcare, media, professional services, research and development, tourism, and transportation. As the world's largest financial centre, London serves as an attractive destination for international investors and businessmen. The headquarters of important banks like HSBC, Royal Bank of Scotland, Barclays and Standard Chartered are located here. The city has the World's largest city airport. If we look at the cultural distribution of the city, London is often described as a cultural hub. It is home to a wide variety of people from different backgrounds and more than 300 languages are spoken. The host city also has some of the best medicine schools like The Imperial College London, the University College London, The King's College London, Queen Mary's University of London and St. George's University of London. Funds for research are available from Research Councils, National Institutes of Health, European Commission, other UK Government Departments and also from commercial sectors like private companies. In 2016, the idea of a global research hub in London was put forward, to bring over ten thousand scientists and clinical researchers together in order to accelerate advancements in cancer science.
