EuroSciCon

23rd World Congress On

Toxicology And Applied Pharmacology

November 04-05 ,2023 | Toronto,Canada

Theme: Experiments and innovation in Toxicology: Interfaces with Pharmacology

Invitation

23rd World Congress On Toxicology And Applied Pharmacology an extensive range of critically important sessions from basic research to recent innovations. The theme: "Experiments and innovation in Toxicology: Interfaces with Pharmacology" is designed for professionals at all levels and career phases of the Pharma industry, who want to improve their under-standing of what will drive and shape the future of the market.

We are pleased to welcome you all to 23rd World Congress On Toxicology And Applied Pharmacology Conference during November 04-05, 2023 Toronto,Canada. Toxicology 2023 provides a unique opportunity for the participants with various backgrounds to share their research ideas and to learn from other colleagues about the modern scientific improvements in the field of toxicology and interrelated disciplines. It is the extraordinary event designed for the professionals to enhance their knowledge and application of research findings in the arena of toxicology and pharmacology| November 04-05 2023 | Toronto,Canada . This year's theme is Experiments and innovation in Toxicology: Interfaces with Pharmacology. PHARMACOLOGY-TOXICOLOGY 2023 will provide an unprecedented opportunity for pharma lovers of all stripes and colors to share their research with colleagues, and discuss and debate the latest advances in the field. We invite researchers and scientists in related disciplines to come together and inform each other in an environment conducive to education and interaction. Seasoned scientists, young researchers, mid-career professionals and just starting out are all welcome. With a broad array of keynote presentations, panel discussions, workshops, and poster sessions, the pharma webinar is the perfect ven-ue not only to dive into your particular chemical interests but also to expand the scope of your knowledge.

26 Scientific tracks are devoted to subjects such as Biopharmaceutics: Toxicology | Aquatic Toxicology | Applied Pharmacology | Analytical Toxicology | Analytical Toxicology | Food Safety and Environmental Toxicology | Experimental and Toxicological Pathway | Behavioral Toxicology | Cradiovascular toxicology | Clinical Pharmacology | Eco- Toxicology | Forensic Toxicology | Genotoxicity | Immuno Toxicology | In vitro Toxicology | Industrial and Occupational Toxicology | Medical and clinical Toxicology | Medical Development and Safety Testing | Microbial Toxicology | Nano Toxicology | Pharmaceutical Toxicology | Pharmacology | Pharmacology And Testing | Toxicology And Risk Assessment | Toxicology Applications | Toxicology Testing

EuroSciCon

A Transformational Learning Experience

1. Curated to address the concerns of today's scientific world
2. Be inspired by some of the world's most renowned figures
3. Stimulate new ways of thinking and provoke action.
4. Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Venue

November 04-05 2023 | Toronto,Canada

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manu Scripts in our Open Access Journals

With over 25000+ parasitologists accessing the website, World Pharma 2021 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

PHARMACOLOGY-TOXICOLOGY 2023 Salient Features:

In a world of information overload, we focus on the issues most relevant to today'stechnical trends enabling our patrons to Congregate with most senior executives Nurture connexions Agenda format which incorporates ample Q&A time Partake in our revamped exhibitor expo sessions Meet and listen to the relevant clients Unprecedented growth creating an unparalleled market place

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience
It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries
Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
World's leading industries and companies attend
Career guidance for early career researchers and students
Provides insights you need to take your research to the next level
A huge conclave of high tech and science priests

Who'd be attending?

10th Edition of International Conference on Nutrition, Dietetics & Nutraceuticals gives chance to meet Academics, Counsellors, Clinical Nutritionists, Registered Dieticians, Health-Care Professionals, Researchers and Scientists, Training Institutes, Universities and Colleges Students, Nutrition and Dietetics Associates, Nutrition, Dietetics & Nutraceuticals based Companies, Business Entrepreneurs, Research scientists, Self-help group facilitators, Social workers, Teachers, Business delegates and Young researchers from nutrition industry and academic field respectively and share ideas, knowledge and different views on various areas of Nutrition, Dietetics & Nutraceuticals.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology and Institute of Biomedical Science (IBMS). Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Toxicology
- Aquatic Toxicology
- Applied Pharmacology
- Analytical Toxicology
- Analytical Toxicology
- Food Safety and Environmental Toxicology
- Experimental and Toxicological Pathway:
- Behavioral Toxicology
- Cradiovascular toxicology
- Clinical Pharmacology
- Eco- Toxicology
- Toxicology And Risk Assessment
- Toxicology Testing
- Forensic Toxicology
- Genotoxicity
- Immuno Toxicology
- In vitro Toxicology
- Industrial and Occupational Toxicology
- Medical and clinical Toxicology
- Medical Development and Safety Testing
- Microbial Toxicology
- Nano Toxicology
- Pharmaceutical Toxicology
- Pharmacology
- Pharmacology And Testing
- Toxicology Applications

World PHARMACOLOGY-TOXICOLOGY 2023

About Destination Toronto

Toronto is the capital city of the Canadian province of Ontario. With a recorded population of 2,794,356 in 2021, it is the most populous city in Canada and the fourth most populous city in North America. The city is the anchor of the Golden Horseshoe, an urban agglomeration of 9,765,188 people (as of 2021) surrounding the western end of Lake Ontario, while the Greater Toronto Area proper had a 2021 population of 6,712,341. Toronto is an international centre of business, finance, arts, sports and culture, and is recognized as one of the most multicultural and cosmopolitan cities in the world.

Indigenous peoples have travelled through and inhabited the Toronto area, located on a broad sloping plateau interspersed with rivers, deep ravines, and urban forest, for more than 10,000 years. After the broadly disputed Toronto Purchase, when the Mississauga surrendered the area to the British Crown, the British established the town of York in 1793 and later designated it as the capital of Upper Canada. During the War of 1812, the town was the site of the Battle of York and suffered heavy damage by American troops. York was renamed and incorporated in 1834 as the city of Toronto. It was designated as the capital of the province of Ontario in 1867 during Canadian Confederation. The city proper has since expanded past its original limits through both annexation and amalgamation to its current area of 630.2 km2 (243.3 sq mi).

The diverse population of Toronto reflects its current and historical role as an important destination for immigrants to Canada. More than half of residents were born outside of Canada, more than half of residents belong to a visible minority group, and over 200 distinct ethnic origins are represented among its inhabitants. While the majority of Torontonians speak English as their primary language, over 160 languages are spoken in the city. The mayor of Toronto is elected by direct popular vote to serve as the chief executive of the city. The Toronto City Council is a unicameral legislative body, comprising 25 councillors since the 2018 municipal election, representing geographical wards throughout the city.

Toronto is a prominent centre for music, theatre, motion picture production, and television production, and is home to the headquarters of Canada's major national broadcast networks and media outlets. Its varied cultural institutions, which include numerous museums and galleries, festivals and public events, entertainment districts, national historic sites, and sports activities, attract over 43 million tourists each year. Toronto is known for its many skyscrapers and high-rise buildings, in particular the tallest free-standing structure on land outside of Asia, the CN Tower.

The city is home to the Toronto Stock Exchange, the headquarters of Canada's five largest banks, and the headquarters of many large Canadian and multinational corporations. Its economy is highly diversified with strengths in technology, design, financial services, life sciences, education, arts, fashion, aerospace, environmental innovation, food services, and tourism. Toronto is the third-largest tech hub in North America after Silicon Valley and New York City, and the fastest growing.
