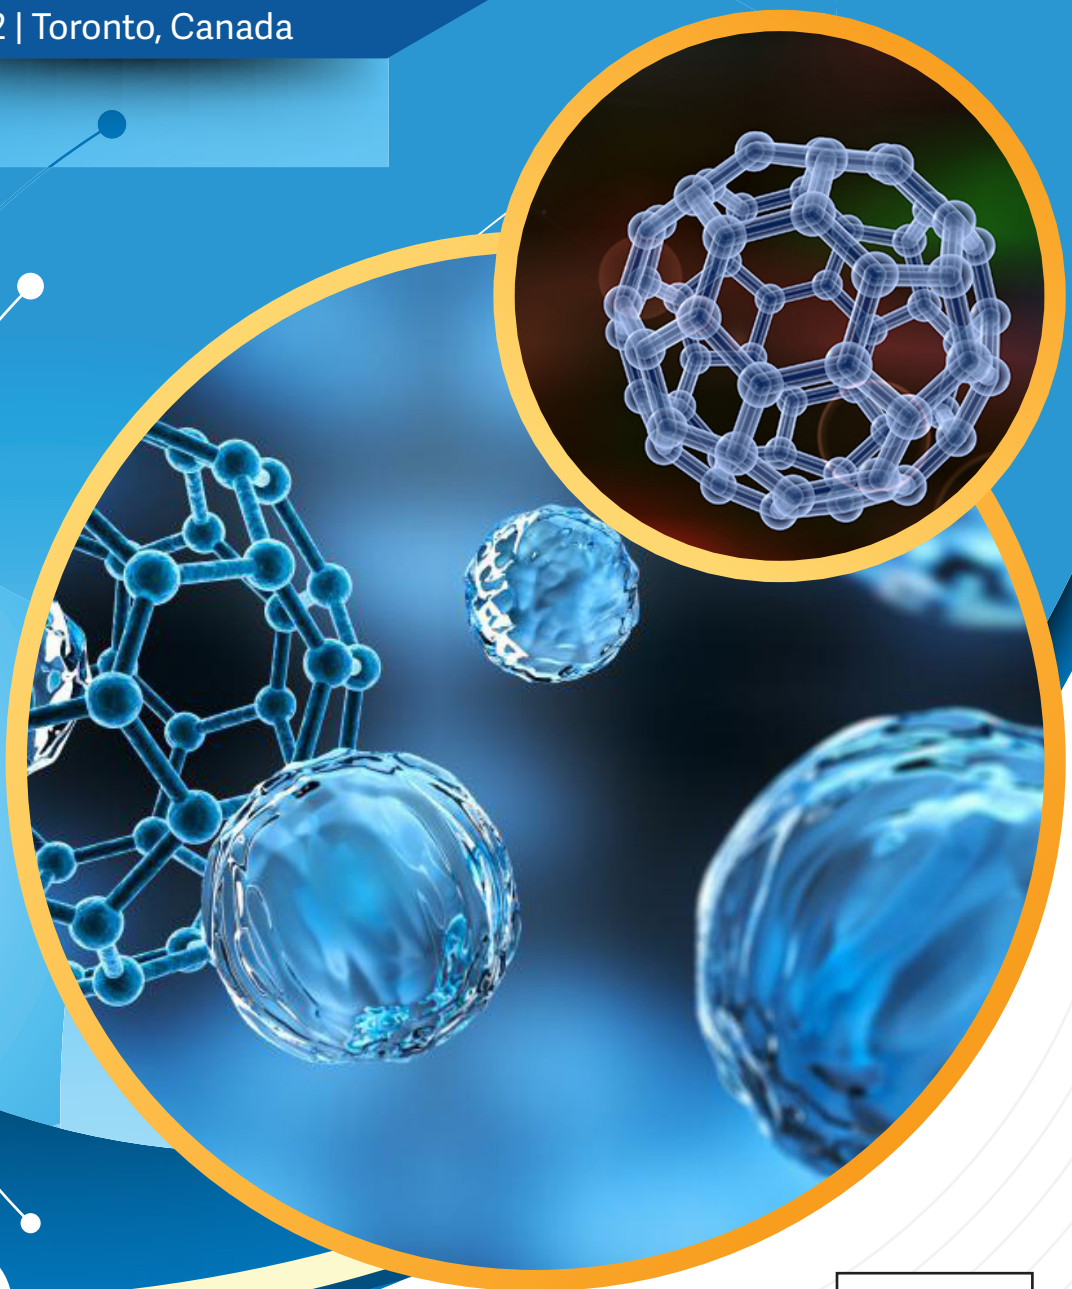
2nd International conference on

Advanced Materials and Nanotechnology

June 20-21, 2022 | Toronto, Canada



https://www.meetingsint.com/conferences/advancematerial

Invitation

Dear Attendees

Meetings International proudly announces the ***2nd International Conference on Advanced Materials and Nanotechnology*** scheduled during ***June 20-21, 2022 in Toronto, Canada***

The conference emphasizes the theme "***Current and Emerging Trends in Advanced Materials and Nanotechnology***".

The Advanced Materials 2022 gathering gives a mind-blowing opportunity to discuss the latest progressions inside the field. This conference brings together the innovations in microfluidics and brings the key opinion leaders and thought leaders in the field from around the world for two intensive days of scientific presentations, networking as well as engagement with companies developing innovations in tools and technologies in this space. The purpose of Advance Material 2022 is to provide an international technical forum to showcase recent advances in Materials, Nanomaterials and Smart Materials conference operation committee is providing a platform for all the budding young researchers, young investigators to showcase their research and innovation.

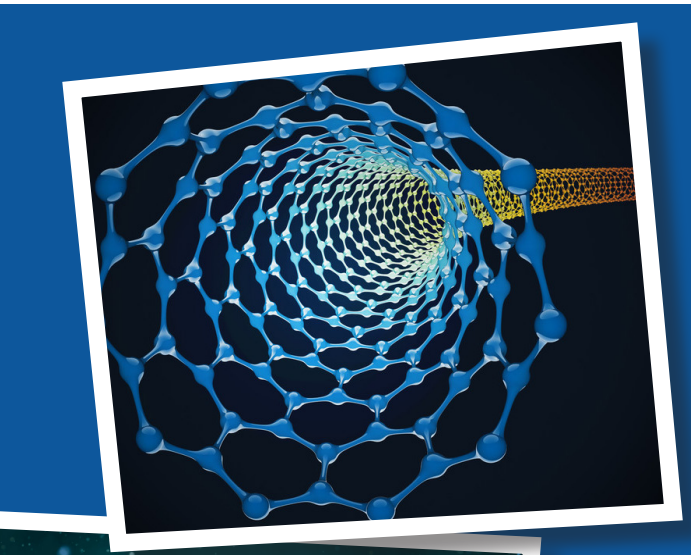
Sincerely,

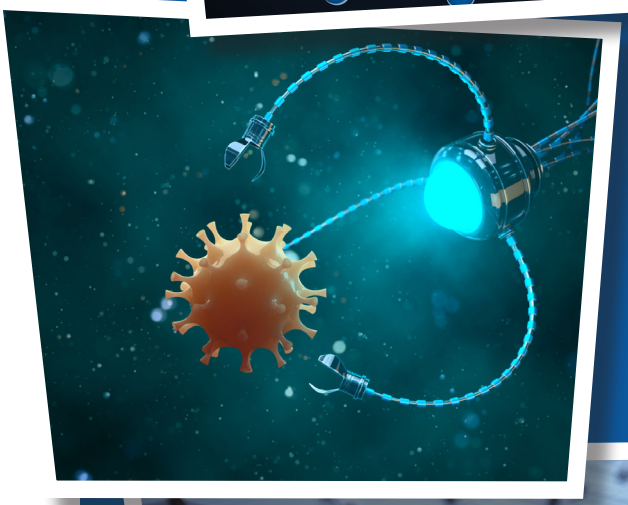
Operating Committee

Advanced Materials 2022

Conference Highlights

- Nanotechnology in Battle Against Coronavirus
- Advanced Nanomaterials/ Nanoparticles
- Material Science and Engineering
- Applications of Nanomaterials
- Bionanotechnology
- Nanomedicines
- Nanotechnology for Energy and Environment
- Pharmaceutical Nanotechnology
- Sustainable Nanotechnology
- Nanomaterials Safety and regulations





- To identify the future directions of research
- Peer review and high quality publication
- Quality research

Toronto Attractions

Explore Toronto

Toronto, the capital of the province of Ontario, is a major Canadian city along Lake Ontario's northwestern shore. It's a dynamic metropolis with a core of soaring skyscrapers, all dwarfed by the iconic, free-standing CN Tower. Toronto also has many green spaces, from the orderly oval of Queen's Park to 400-acre High Park and its trails, sports facilities and zoo. Toronto is located on the shore plain beside its harbour. There is a fairly abrupt rise 4 km inland which marks the shoreline of Lake Iroquois, a lake formed by glaciers 12,500 years ago that had a much higher water level than Lake Ontario.

French fur traders had known about the Toronto Passage since the early 1600s, and in 1720 they built a small store on the Humber River. This post failed financially and was abandoned in 1730. In 1750 the French built another small trading post. Fort Rouillé (or Fort Toronto), located in Toronto's present-day Exhibition Grounds, was burned in 1759 by its French garrison during a retreat from British forces.

Toronto's economy has gone through the stages of commercial lake port, railway and industrial hub, financial nexus, and high-level service and information centre. At present its port and commercial functions remain important, though relatively less so, apart from heavy retail activity. Its railway role persists, but has been modified by air and automotive transport.

Venue
Toronto, Canada
