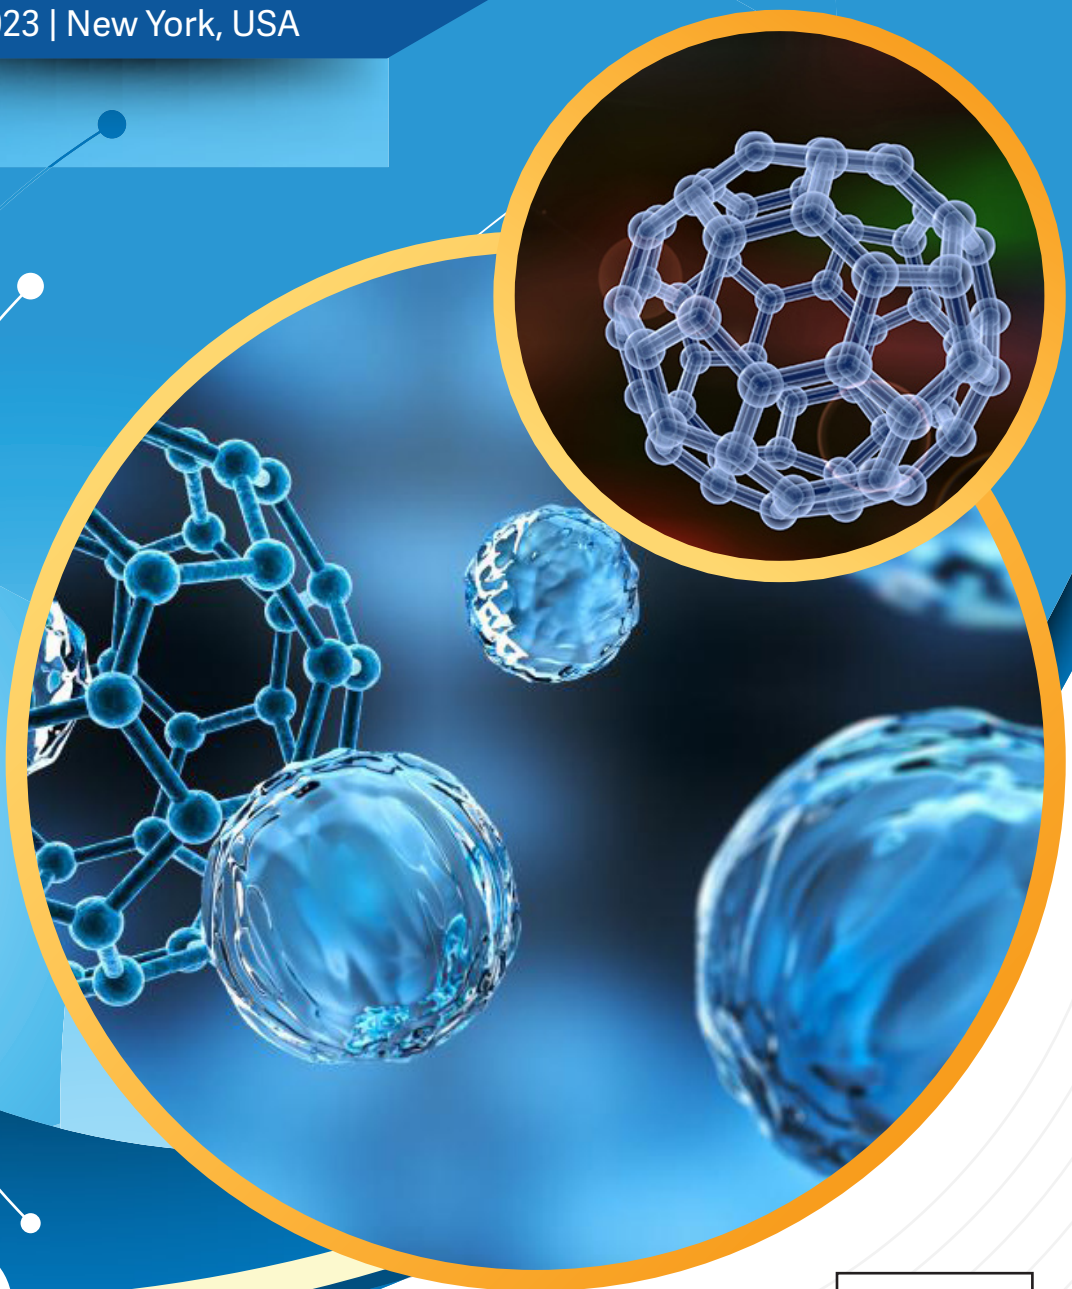
3rd International conference on

Advanced Materials and Nanotechnology

April 21-22, 2023 | New York, USA



https://www.meetingsint.com/conferences/advancematerial

Invitation

Dear Attendees

Meetings International proudly announces the ***3rd International Conference on Advanced Materials and Nanotechnology*** scheduled during ***April 21-22, 2023 in New York, USA***

The conference emphasizes the theme "***Current Innovations in Advanced Materials and Nanotechnology***".

The Advanced Materials 2023 gathering gives a mind-blowing opportunity to discuss the latest progressions inside the field. This conference brings together the innovations in advanced materials and nanotechnology the key opinion leaders and thought leaders in the field from around the world for two intensive days of scientific presentations, networking as well as engagement with companies developing innovations in tools and technologies in this space. The purpose of Advance Material 2023 is to provide an international technical forum to showcase recent advances in Materials, Nanomaterials and Smart Materials conference operation committee is providing a platform for all the budding young researchers, young investigators to showcase their research and innovation.

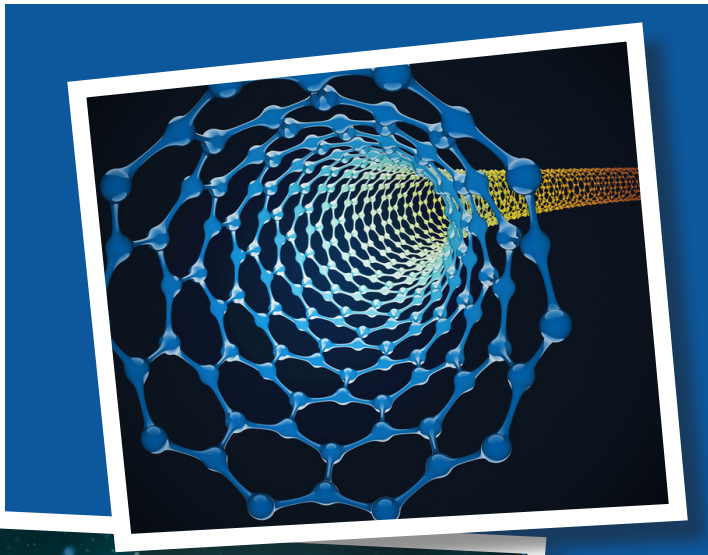
Sincerely,

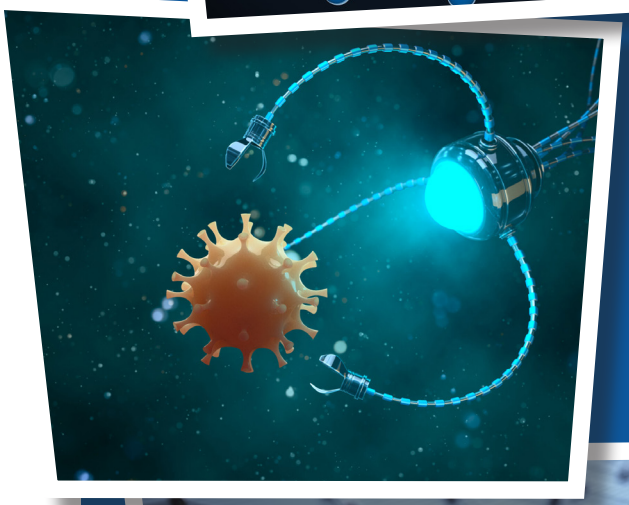
Operating Committee

Advanced Materials 2023

Conference Highlights

- Advanced Nanomaterials/ Nanoparticles
- Material Science and Engineering
- Nanomedicines
- Materials Engineering and Technology
- Advanced Materials Devices
- Graphene and 2D Materials
- Materials for Green Technology
- Nanotechnology
- Science and Technology of Advanced Materials
- Ceramics, Glasses & Composite Materials





- To identify the future directions of research
- Peer review and high quality publication
- Quality research

New York Attractions

Explore New York

New York, known officially as the State of New York, is a state in the North-eastern United States. It is often called New York State to distinguish it from its largest city, New York City. With a total area of 54,556 square miles (141,300 km2), New York is the 27th largest U.S. state geographically. With 20.2 million residents, it is the fourth most populous state in the United States as of 2021, with approximately 44% living in New York City, including 25% of the state's population within Brooklyn and Queens, and another 15% on the remainder of Long Island. The state of New York is bordered by New Jersey and Pennsylvania to the south, and Connecticut, Massachusetts, and Vermont to the east; it has a maritime border with Rhode Island, east of Long Island, as well as an international border with the Canadian provinces of Quebec to the north and Ontario to the northwest..

New York City (NYC) is the most populous city in the United States, and around two-thirds of the state's population lives in the New York metropolitan area, the world's largest urban landmass. NYC is home to the headquarters of the United Nations, and has been described as the cultural, financial, and media capital of the world, as well as the world's most economically powerful city, and is sometimes described as the capital of the world. The next five most populous cities in the state are Buffalo, Yonkers, Rochester, Syracuse, and the state capital of Albany.
