Agriculture 2018

INTERNATIONAL CONFERENCE ON

AGRICULTURE AND HORTICULTURE

November 28-29, 2018 | Tokyo, Japan

http://www.meetingsint.com/conferences/agriculture-horticulture

Invitation

Meetings International proudly announces the ***Global expert meeting on Agriculture and horticulture*** scheduled during ***November 28-29, 2018*** in ***Tokyo, Japan, Canada***. The conference emphasizes the theme ***"Current Trends in Agriculture & Horticulture"***.

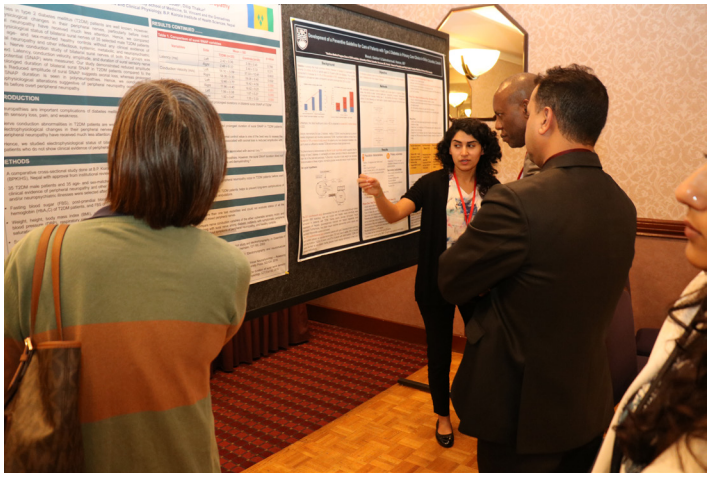

Meetings International provides an international dais for Agriculture and Horticulture professionals to Exchange Ideas, Knowledge and Networking at its ***100+ International Conferences***. The importance of Agriculture has come into spotlight in the recent years. Many of the floral species have become extinct due to the human activities. Thus, priorities are given for the Agriculture research to produce more production to support the ever-growing population of the world.

Sincerely,
Operating Committee
Agriculture 2018

- Food & Nutrients

Meetings International offers

A unique platform for top level research and innovation

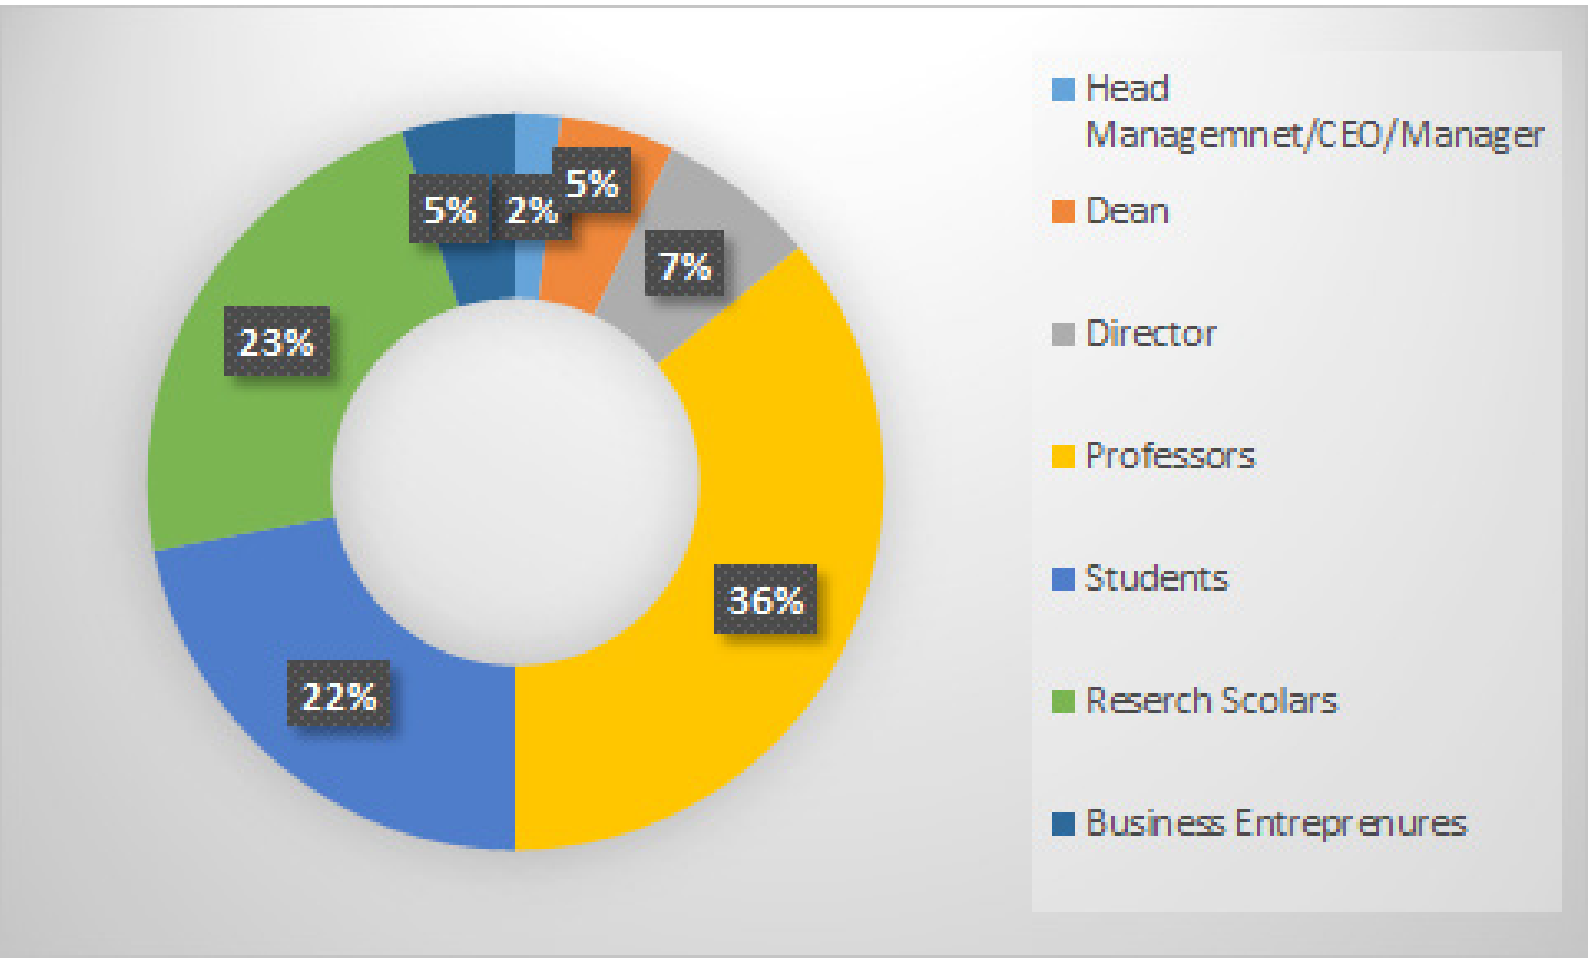

WE VALUE

To identify the future directions of research

Peer review and high quality publication

Quality research

Explore **Tokyo**

Tokyo has always been Japan's largest city, and one of the mightiest cities in Asia, if not the world. Tokyo ranked first in the Global Economic Power Index and third in the Global Cities Index. It used to be known as Edo, and grew from a small village to become, in the 1720s, the first city in Asia with a population of more than 1 million people. Renamed Tokyo in 1868, the city continued to grow rapidly. By 1900, its population had passed 2 million for the first time, and by the start of the 1940s, the wider metropolitan area was home to more than 7 million people.
