

International Conference on

Biomedical Engineering and Bioinformatics

November 08-09, 2021 | New York, USA

Invitation

Dear Attendees,

Meetings International proudly announces the **International Conference on Biomedical Engineering and Bioinformatics** scheduled during **November 08-09, 2021 in New York, USA**

The conference emphasizes the theme "ENABLING INNOVATIVE TECHNOLOGIES FOR GLOBAL HEALTHCARE".

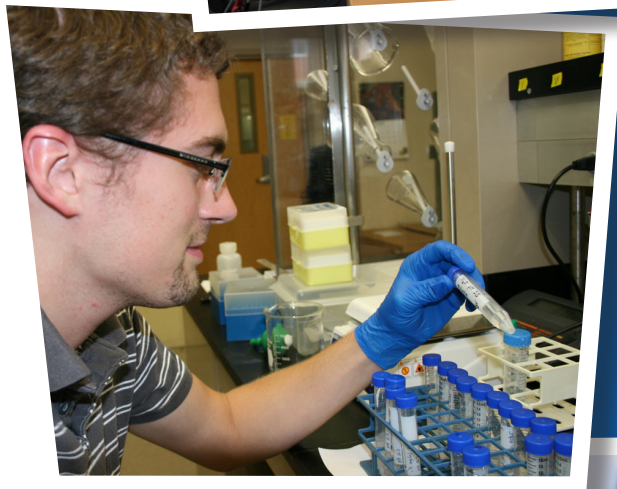

The Dental Science 2020 gathering gives a mind-blowing opportunity to discuss the latest progressions inside the field. It will give an overall stage to look at about the present and future troubles in dental guidance, continuing with preparing, medicinal strategy, center around points. With huge delight, Dental science and Education alongside the Organizing Committee Members welcome every one of the members from all over the globe to attend the conference. It provides a great opportunity for establishing strong relations between the dental organizations, the general public, and government so that they can work together to achieve healthier mouths and happier lives. Dental Science 2020 focuses mainly on Oral Medicine, Dental Surgery, Dental Hygiene and Oral health, Cosmetic Dentistry, CAD/CAM Dentistry and Future of AI in Dentistry. Dental Science conference operation committee is providing a platform for all the budding young researchers, young investigators, postgraduate/ Master students, PhD. students and trainees to showcase their research and innovation.

Sincerely,
Operating Committee
Dental Science 2021

Conference Highlights

- Biomedical Engineering
- Biomedical Signal Processing
- Biomedical sensors
- Biomedical Applications
- Biomedical Imaging and Image Processing
- Biomedical Sensors and Wearable Systems
- Biomedical & Health Informatics
- Biomedical Engineering Education and Society
- Biomedical Artificial Intelligence in Healthcare
- Biomedical Organ Engineering

- To identify the future directions of research
- Peer review and high quality publication
- Quality research

New York Attractions

Explore New York

New York, constituent state of the United States of America, one of the 13 original colonies and states. New York is bounded to the west and north by Lake Erie, the Canadian province of Ontario, Lake Ontario, and the Canadian province of Quebec; to the east by the New England states of Vermont, Massachusetts, and Connecticut; to the southeast by the Atlantic Ocean and New Jersey; and to the south by Pennsylvania. The capital is Albany. Until the 1960s

New York was the country's leading state in nearly all population, cultural, and economic indexes. Its displacement by California beginning in the middle of that decade was caused by the enormous growth rate that has persisted on the West Coast rather than by a large decline in New York itself. Texas overtook New York as the second most populous state in 2000.
