4TH INTERNATIONAL CONFERENCE ON CANCER RESEARCH

Cancer 2019

March 20-21, 2019 | Amsterdam, Netherlands

INVITATION

Meetings International proudly announces the **4th International Conference on Cancer Research** scheduled during **March 20-21, 2019 at Amsterdam, Netherlands.** The conference emphasizes the theme "**Scope of Researches in the field of Cancer**".

Meetings International provides an international dais for scientists and Cancer researchers professionals to present their new developments and researches in front of the World. From the research that has taken place so far we have found ways of determining when a person has cancer in its early stages. Due to the large number of different kinds of cancers, there are varies ways in which cancer can be detected. Breast Cancer for instance can be detected by performing self-examination of the breast, or by visiting the doctor who can perform a Mammogram.

Sincerely,
Operating Committee
CEO and Founder
Meetings International PTE LTD.

ABOUT AMSTERDAM

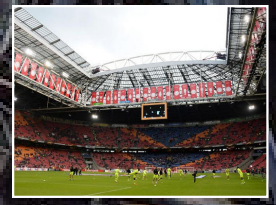

Amsterdam's canal-woven core is laced by atmospheric narrow lanes. You never know what you'll find: a tiny hidden garden; a boutique selling witty, stylised Dutch-designed homewares and fashion; a jewel-box-like jenever (Dutch gin) distillery; a flower stall filled with tulips in a rainbow of hues; an old monastery-turned-classical-music-venue; an ultra-niche restaurant such as an avocado or strawberry specialist or one reinventing age-old Dutch classics. Fringing the centre, post-industrial buildings in up-and-coming neighbourhoods now house creative enterprises, from art galleries to craft breweries and cutting-edge tech start-ups, as well as some of Europe's hottest clubs.
