Cancer Therapy 2018

INTERNATIONAL CONFERENCE ON

CANCER THERAPY

July 23-24, 2018 | Osaka, Japan

http://www.meetingsint.com/conferences/cancertherapy

Invitation

Meetings International provides an international dais for scientists and plant science professionals to Exchange Ideas, Knowledge and Networking at its 100+ International Conferences. The importance of plants has come into spotlight in the recent years. Many of the floral species have become extinct due to the human activities. Thus, priorities are given for the plant research to produce more production to support the ever-growing population of the world.

Meetings International invites participants from all over the world to attend the "***International Conference on Cancer Therapy***" on ***July 23rd and 24th, 2018*** at ***Osaka, Japan*** emphasizing on the theme ***"Exploring Therapeutics for Cancer Cure".*** Cancer Therapy 2018 shall include prompt keynote presentations, special sessions, workshops, symposiums, oral talks, poster presentations and exhibitions.

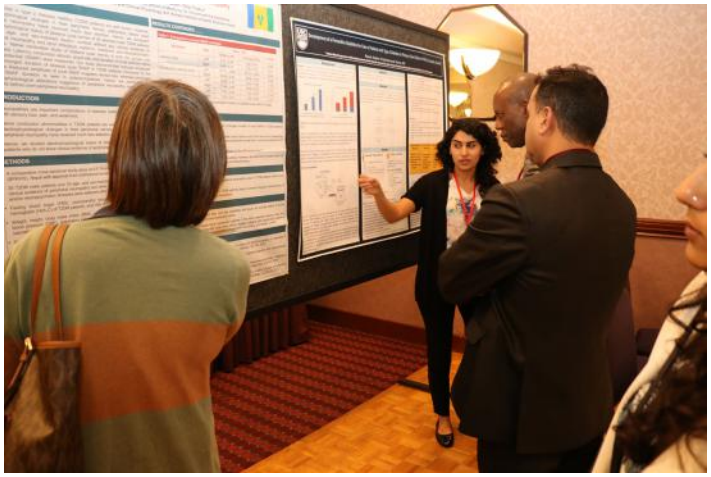

Meetings International Cancer Therapy 2018 shall offer an unmatched attendee experience and opportunities to enhance the career. Join us in Japan to learn about the innovative therapeutic strategies that are evolving to minimize the lethality of cancer.

Sincerely,
Operating Committee
CEO and Founder
Meetings International PTE LTD.

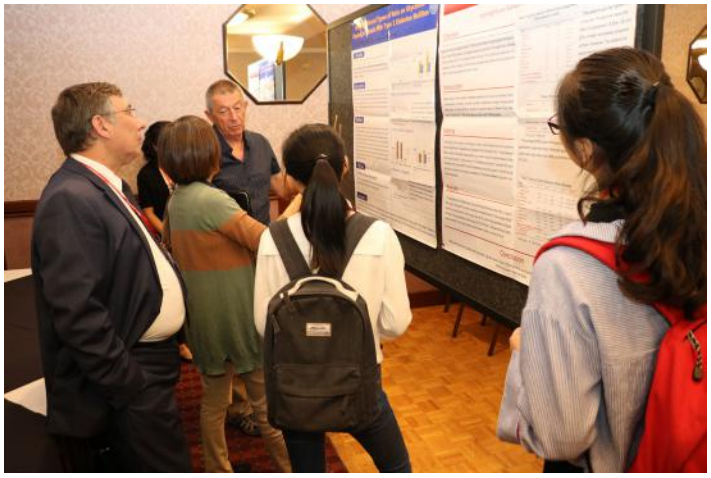

Cancer Therapy 2018

Welcome Message

Jacques Francis Miller

Professor Emeritus
The Walter and Eliza Hall Institute of Medical Research and the University of Melbourne.
Australia.

Dear All,

It gives me great pleasure to extend to you all a very warm welcome to Cancer Therapy 2018. We have entered a completely new phase in our efforts to cure cancer, as we now have at our therapeutic disposal novel ways to enlist the body's own T cells in the fight against cancer. Our basic work on thymus immune function, T and B cell antigen recognition, T cell activation, and T cell costimulation, has led to the invention of checkpoint blockade and chimeric antigen receptor T cells. Immunology has certainly spawned immunotherapy which is claiming a seat in the therapeutic pantheon of oncology, next to and perhaps, or hopefully, eventually superseding surgery, radiation therapy, and chemotherapy. Welcome everybody!

Awards and Honours:

1992 Honorary Life Membership of the Transplantation Society of Australia & NZ

1995 J. Alwyn Taylor International Prize for Medicine, London, Ontario, Canada

1999 Elected Emeritus Member of the International Transplantation Society

1999 Elected Honorary Member of the German Society for Immunology

2000 Awarded the Faulding-Florey Medal and Prize, Adelaide, Australia

Conference Highlights

- Palliative Care
- Surgery
- Chemotherapy
- Hormonal Therapy
- Suicide Gene Therapy
- Radiation Therapy
- Molecular Targeted Therapy
- Immunotherapy
- Stem Cell Transplant
- Regenerative Medicine
- Gastric Cancer and Japan
- Can Cannabis Cure Cancer?

Meetings Int. offers

An unique platform for top level research and innovation

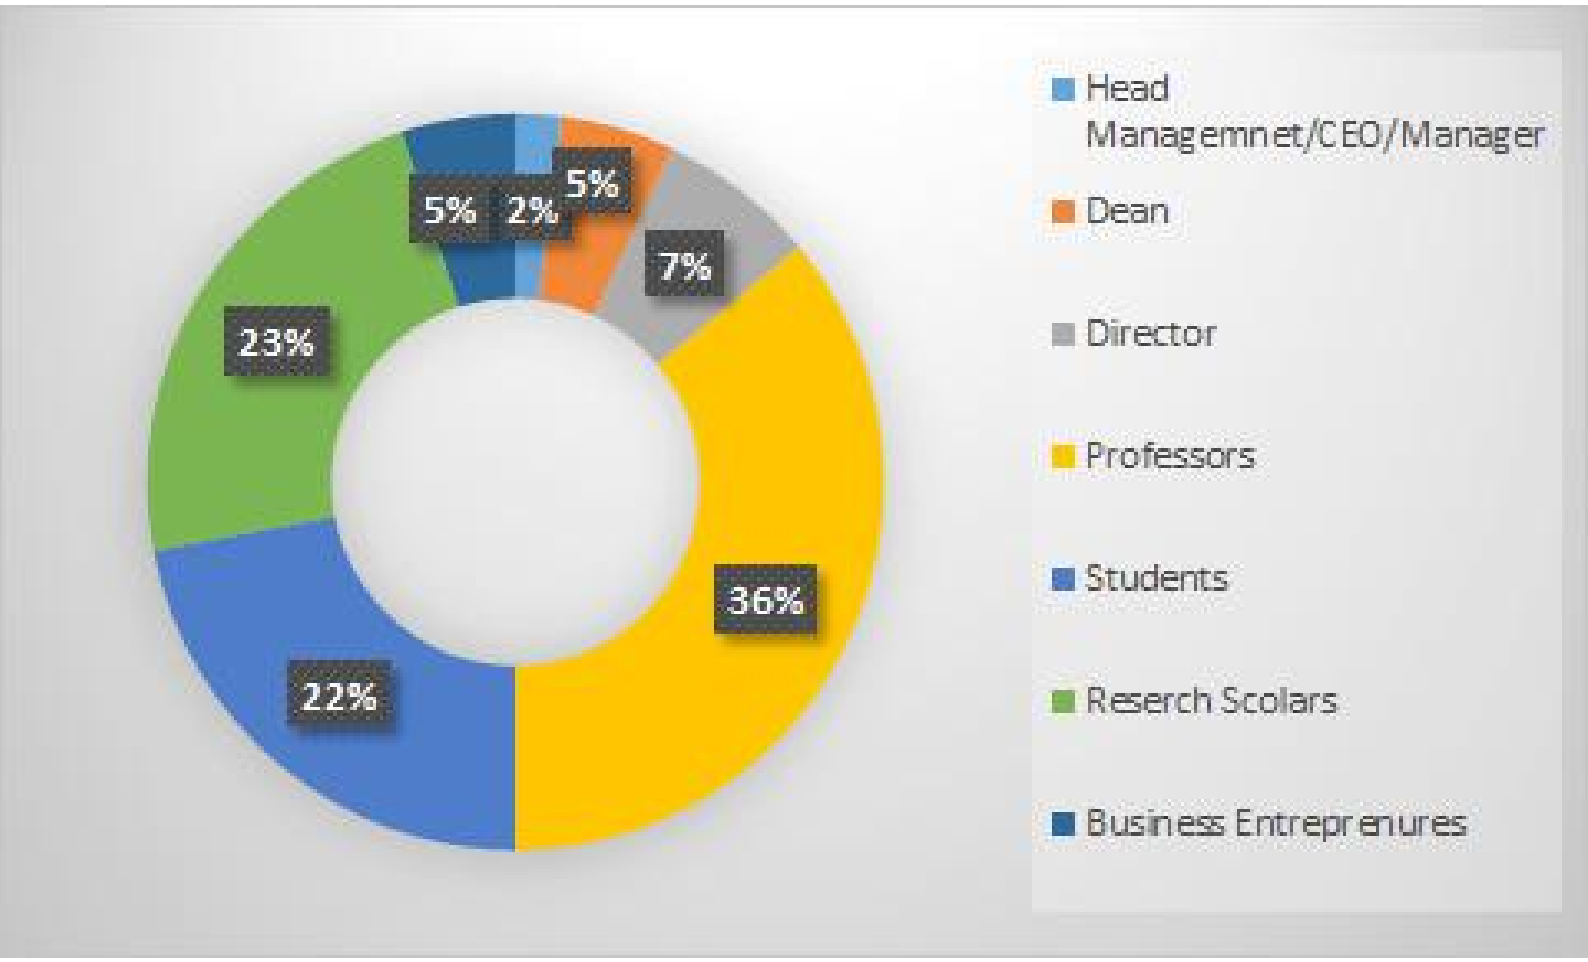

WE VALUE

To identify the future directions of research

Peer review and high quality publication

Quality research

Explore **Osaka**

A designated city in the Kansai Region of Japan, Osaka is the 2nd largest metropolitan of Japan with a population of 2.691 million. The cherry blossoms of Osaka and the Osaka Castle are attractions that one can never miss. August is the hottest month in Osaka with an average temperature of 29°C and January is the coldest at 6°C with the most daily sunshine hours at 6.7 in August. The wettest month is June with an average of 230mm of rain. Osaka's sprawling cityscape is described as "only surpassed by Tokyo as a showcase of the Japanese urban phenomenon."
