9TH WORLD CONGRESS ON

OBESITY, HUMAN METABOLISM AND DIABETES HEALTHCARE

AUGUST 24-25, 2020 | BERLIN, GERMANY

Diabetes Care 2020

Invitation

Dear Attendees,

Meetings International proudly announces the 9th World Congress on Obesity, Human Metabolism and Diabetes healthcare scheduled during August 24-25, 2020 in Berlin, Germany. The conference emphasizes the theme "NEW EMERGING CHALLENGES IN DIABETES, METABOLISM, OBESITY AND THEIR PREVENTIONS".

Diabetes mellitus is a very common disorder caused by high levels of sugar in the bloodstream. It affects a large number of people, with many more people remaining undiagnosed. Diabetes mellitus is linked with an increased risk of heart attacks, strokes, poor blood circulation to the legs and damage to the eyes, feet and kidneys. Early diagnosis and strict control of blood sugar, blood pressure and cholesterol levels can help to prevent or delay these complications associated with diabetes. . With the change in life style; our endocrine system of the body is getting disturbed. In order to get innovative, the Diabetes Care Conference will focus on the latest and exciting innovations in all areas of diabetes and metabolism based research offering a unique opportunity for international explorers to assemble, network, talk and grasp new scientific innovations and ideas to prevent diabetes related ailments. To allocate advance researches, developments, druggists, scientists, technology challenges and improvement and alternative therapies, this meeting forms an excellent learning.

Sincerely,

Operating Committee

Dean

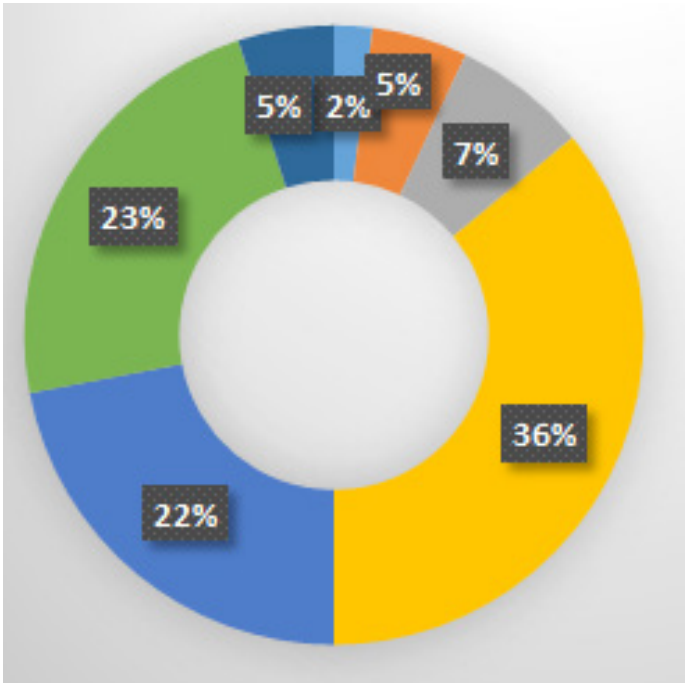

Director

Professor

Students

Research Scolars

Business Enterprenures

Explore Berlin

Berlin, capital and chief urban centre of Germany. The city lies at the heart of the North German Plain, athwart an east-west commercial and geographic axis that helped make it the capital of the kingdom of Prussia and then, from 1871, of a unified Germany. Berlin's former glory ended in 1945, but the city survived the destruction of World War II. It was rebuilt and came to show amazing economic and cultural growth. Germany's division after the war put Berlin entirely within the territory of the German Democratic Republic (GDR, or East Germany). The city itself echoed the national partition—East Berlin being the capital of East Germany and West Berlin a Land (state) of the Federal Republic of Germany (FRG, or West Germany). West Berlin's isolation was later reinforced by the concrete barrier erected in 1961 and known as the Berlin Wall. Its status as an enclave made Berlin a continuous focus of confrontation between the Eastern and Western powers as well as a symbol of Western lifestyle for 45 years. The fall of the East German communist regime—and the accompanying opening of the wall—in late 1989 unexpectedly raised the prospect for Berlin's reinstatement as the all-German capital.
