3RD INTERNATIONAL CONFERENCE ON

EARTH SCIENCE AND CLIMATE CHANGE

Earth Science 2019

April 15-16, 2019 | Toronto, Canada

INVITATION

Earth Science 2019

Meetings International proudly announces the **3rd International conference on Earth Science and Climate Change** scheduled during **April 15-16, 2019 at Toronto, Canada.** The conference emphasizes the theme "**Improve understanding of the Earth Sciences and Abrupt Climate Change** ".

Meetings International provides an international dais for scientists and Earth Science professionals to Exchange Ideas, Knowledge and Networking at its **100+ International Conferences**. Earth Science 2019 is diagram to bring collectively all leading academic scientists, researchers and studies pupils to trade and percentage their studies and research results on all aspects of Earth technology and weather exchange. It additionally gives a gold standard interdisciplinary platform for researchers, practitioners, and educators to give and discuss the most recent innovations, tendencies, and worries in addition to sensible challenges encountered and answers followed in the fields of Earth technological know-how and Climate Change

Sincerely,
Operating Committee
CEO and Founder
Meetings International PTE LTD.

Important Dates

Early Bird: **September 30, 2018**

Registration Open: **September 15, 2018**

Abstract Submission Open: **September 15, 2018**

On Spot Registration: **April 15, 2019**

Toronto, Canada

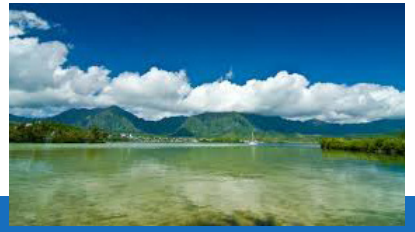
CONFERENCE HIGHLIGHTS

- Earth Science and Hydrology: Surface Hydrology/Surface Water
- Geological Hazard Assessment and Earthquake Geology
- Earth, Ecology and Ecosystems
- Petrology, Mineralogy and Mineral Processing
- Agriculture and Bio resources
- Climate change and Climatology
- Toxicology and Environment health
- Pollution and Climate change
- Environmental Designing
- Carbon Forming and Carbon cycle
- GIS, Remote Sensing and Geospatial Sciences
- Atmospheric Sciences and Meteorology
- Global warming effects and causes
- Marine geosciences and Oceanography
- Sustainability and Climate change
- Science behind Climate Change
- Renewable energy to mitigate climate change



Meetings Int. offers

An unique platform for top level research and innovation

ABOUT TORONTO

Toronto, the capital of the province of Ontario, is a major Canadian city along Lake Ontario's northwestern shore. It's a dynamic metropolis with a core of soaring skyscrapers, all dwarfed by the iconic, free-standing CN Tower. Toronto also has many green spaces, from the orderly oval of Queen's Park to 400-acre High Park and its trails, sports facilities and zoo. Toronto is located on the shore plain beside its harbour. There is a fairly abrupt rise 4 km inland which marks the shoreline of Lake Iroquois, a lake formed by glaciers 12,500 years ago that had a much higher water level than Lake Ontario.
