

5th International Conference on
EARTH SCIENCE AND CLIMATE CHANGE

Dates: October 18-19, 2021

Venue: Paris, France

Theme: Sustainable Development in Earth Sciences and Abrupt Climate Change

We are welcoming you to our upcoming "**5th International Conference on Earth Science and Climate Change**" that will be scheduled in **Paris, France** from **October 18-19, 2021** which includes prompt keynote presentations, Oral talks, Workshops/Symposia, Poster presentations, and Exhibitions. The theme of the conference is, "*Sustainable Development in Earth Sciences and Abrupt Climate Change*".

Meet your target audience and explore your product and services.

- To Meet Experts
- Learning In a New Space
- New Tips & Tactics
- Certification
- Global Networking
- Rebuild New Customer Base
- Brand Establishment

Abstract Submission

Conference Highlights:

- Earth Science and Hydrology: Surface Hydrology/Surface Water
- Geological Hazard Assessment and Earthquake Geology
- Earth, Ecology and Ecosystems
- Petrology, Mineralogy and Mineral Processing
- Climate Change and Climatology
- Agriculture and Bioresources
- Toxicology and Environment Health
- Pollution and Climate Change
- Environmental Designing
- Carbon Forming and Carbon Cycle
- GIS, Remote Sensing and Geospatial Sciences
- Atmospheric Sciences and Meteorology

The Congress is the platform to learn and proportion thoughts all over the world. The conference not only gives you the opportunity to fulfil your business idol, scientist, and different renowned personality but also your chances are greatly improved when you're sharing the same area. This may also help to overcome natural calamities with lots of tactic on direction and flow of technology for the country and the arena in the subsequent decade.

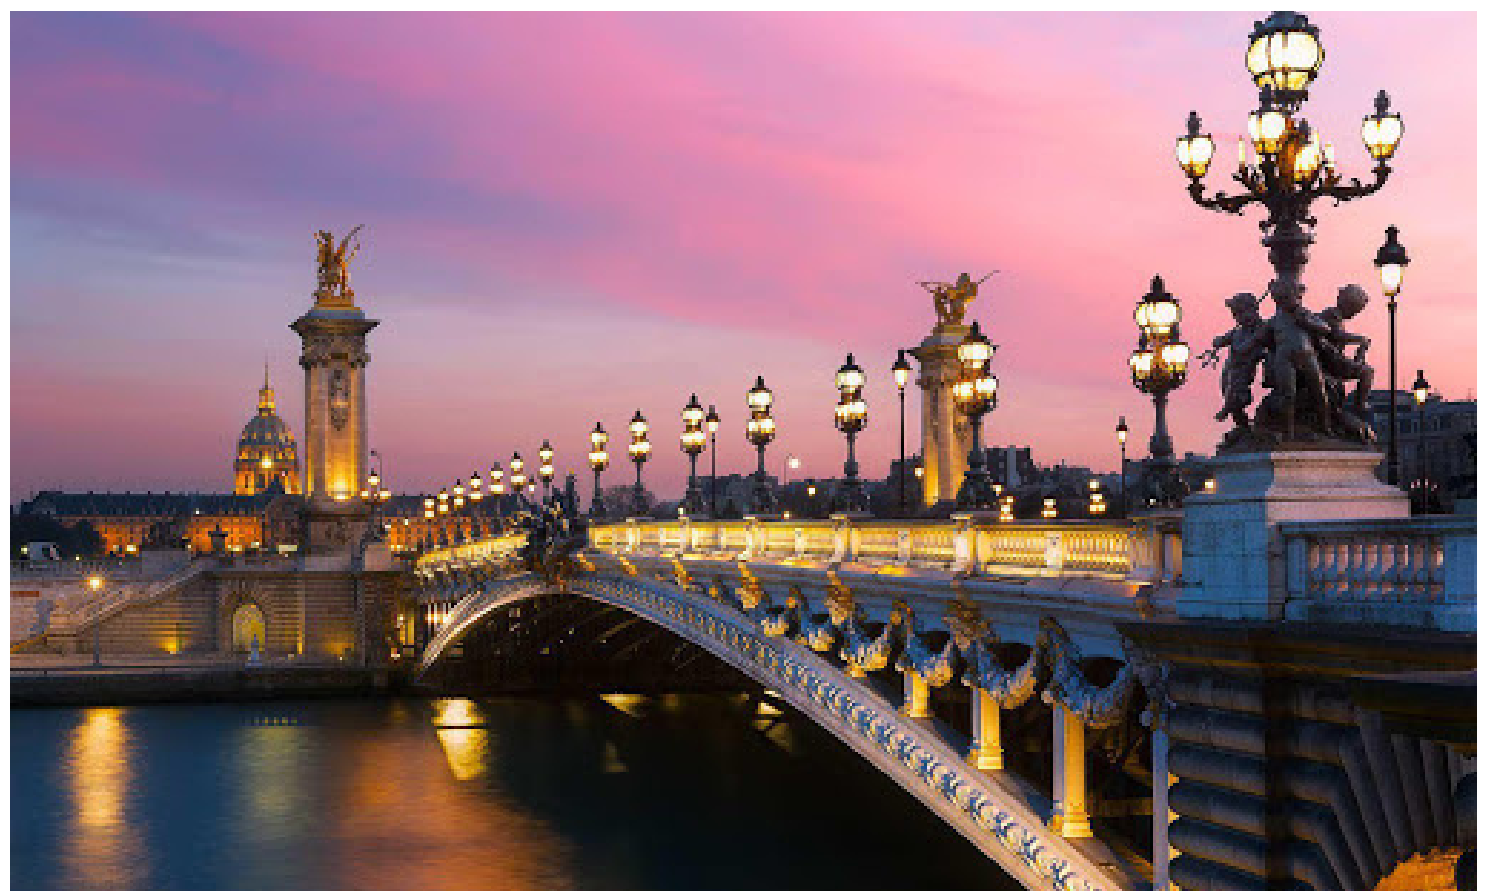

Deadlines:

Abstract submission: **May 24, 2021**

Early bird registration: **March 30, 2021**

Registration closed by **October 18, 2021**

Paris, France's capital is a major European city and a global centre for art, fashion, gastronomy and culture. Its 19th-century cityscape is crisscrossed by wide boulevards and the River Seine. Paris is in the Paris department of the Paris-Isle-of-France region. The French historic, political and economic capital, with a population of only 2.5 million is located in the northern part of France. Paris has a population of more than 2 million people, and the city is divided into 20 "arrondissements" (districts) which are numbered 1 to 20. The river Seine divides the city into the Rive Gauche on the south and the Rive Droite on the north banks of the river. The streets were made much wider, places and squares were built and the buildings completely rebuilt.
