22nd International Conference on

Energy and Sustainable Environment

December 04-05, 2023 | Dubai, UAE

https://www.meetingsint.com/conferences/energy

Invitation

Dear Attendees,

Meetings International proudly announces the ***22nd International Conference Energy 2023*** will be scheduled in ***Dubai, UAE*** during ***December 04-05, 2023***

The conference emphasizes the theme "Emerging Fields of Study for Energy for a Sustainable World".

The latest trends and innovations in energy field have authorized it to become more advance science that involves a number of disciplines and more number of energy scientists specializing in everything from DNA and botany to dentistry and tool marks. 22nd International Conference on Energy 2023 Congress will be scheduled in Dubai, UAE during December 04-05, 2023 which includes prompt keynote presentations, Oral talks, Workshops/Symposia, Poster presentations, and Exhibitions. The theme of the conference is around, "EMERGING FIELDS OF STUDY FOR ENERGY FOR A SUSTAINABLE WORLD". Forensic Research 2021 is the premier event that brings together a unique and international mix of experts, researchers, and decision-makers both from academia and industry across the globe to exchange their knowledge, expertise, and research innovations to build a world-class Energy Conference.

Sincerely,

Operating Committee

Energy 2023

Conference Highlights

- Bio energy and Bio Technology
- Hydro Power Plants
- Fossil and Radioactive Energy
- Hydro Power Generation and Geothermal Energy
- Global Impacts of Non-Renewable Resources
- Waste to Energy and Smart Grid Systems
- Solar Energy Systems
- Wind Energy
- Renewable and Non-Renewable Energy
- Sustainable Development
- Trends in Renewable Energy

- To identify the future directions of research
- Peer review and high quality publication
- Quality research

Dubai Attractions

Explore Dubai

Dubai Gulf Arabic pronunciation is the most populated city in the United Arab Emirates (UAE) and the capital of the Emirate of Dubai, the most populated of the 7 monarchies which together form the United Arab Emirates. Established in the 18th century as a small fishing village, the city grew rapidly in the early 21st century with a focus on tourism and luxury, having the second most five-star hotels in the world, and the tallest building in the world, the Burj Khalifa, which is over a half a mile tall.

In the eastern Arabian Peninsula on the coast of the Persian Gulf, it is also a major global transport hub for passengers and cargo. Oil revenue helped accelerate the development of the city, which was already a major mercantile hub. A center for regional and international trade since the early 20th century, Dubai's economy relies on revenues from trade, tourism, aviation, real estate, and financial services. Oil production contributed less than 1 percent of the emirate's GDP in 2018. The city has a population of around 3.4 million (as of 2021).

Venue

Singapore City, Singapore

Important Dates

Early Bird: ***May 24, 2023***

Abstract Submission Deadline: ***October 05, 2023***
