Announcement: International Conference on Food Microbiology, Tokyo, Japan on April 19-20, 2021

We are glad to announce the International Conference on Food Microbiology programmed to be held in Tokyo, Japan on April 19-20, 2021. The theme for the Food Microbiology 2021 is "Microbial Innovations in the World of Food", a two-day conference, aims to gather ardent minds ranging from frontiers to novices to discover and create prospects to gain scientific advancements for a better tomorrow. Food Microbiology conference will be focusing on increasing challenges and complexity posed by diverse aspects of food microbiology, ranging from international and local/regional issues in food safety and food hygiene to food biotechnology, and to the application of molecular approaches in all aspects of modern food microbiology.

This not only helps to spark new research ideologies but also craft a network of high profile and skilled people to protect the future. The conference expects to compile 150+ participants mainly from Microbiological Associations, Societies and Universities, Research Scientists, Principal Microbiologist, food microbes and microbial engineers, Business/Practice Managers, Hygienists & Therapists and Students.

The scientific contributions towards our Food Microbiology 2021 conference are welcome in the form of oral, video, poster presentations/workshops and seminars/ networking sessions/ exhibits. These tracks are designed to reveal and augment the expertise of the attendees. We truly believe Food Microbiology 2021 conference to attain greater heights and success. Food Microbiology 2021 welcomes all the professionals, professors, students, research enthusiasts, business delegates to venture into complete experience at Tokyo, Japan on April 19-20, 2021.
