To identify the future directions of research

Peer review and high quality publication

Quality research

Explore Singapore

Singapore has reinvented itself as one of the world's best destinations. With sharp and constant contrasts all over this area you will struggle to find a more diverse and vibrant holiday experience anywhere else. The phrase 'City in a Garden' has been used to describe this magical location in which ancient forests and contemporary architecture blend into one. Old school jungle huts, chic cocktail bars and everything in-between, Singapore is a city of riches both natural and man-made. Singapore offers travelers so much more than just a stop-over destination, there is a wealth of culture and fun just waiting to be discovered.

With a primary rainforest in the city Centre, 4 nature reserves and 300 parks, there are plenty of green spaces to escape the hustle and bustle of the city. A harmonious blend o culture, cuisine, arts and architecture, Singapore is a dynamic city that's rich in contrast and color. There is no better way to appreciate this than from the water where you can see old tradition against a backdrop of modern skyscrapers. Cruising in general is a great way to enjoy the beauty and diversity of South East Asia – and you would benefit from this with Singapore in particular. Bringing together the finest of both East and West you can experience a magical mix of culture in this city with a huge range of attractions on offer.
