

5th International Conference on

Genome Editing and Therapy 2021

November 17-18, 2021 | London , United Kingdom

Genome Editing and Gene Therapy 2021

Invitation

Dear Attendees

Meetings International proudly announces the **5th International Conference on Genome Editing and Gene Therapy** scheduled during **November 17-18 , 2021 in London , United Kingdom**

The conference emphasizes the theme **"Change of Human Life with Gene Modification"**.

The Genome Editing and Gene Therapy 2021 gathering gives a mind-blowing opportunity to discuss the latest progressions inside the field. This conference brings together the innovations in Genome Editing and Gene Therapy and brings the key opinion leaders and thought leaders in the field from around the world for two intensive days of scientific presentations, networking as well as engagement with companies developing innovations in tools and technologies in this space. The purpose of Genome Editing and Gene Therapy is to provide an international technical forum to showcase recent advances in Genome Editing and Gene Therapy conference operation committee is providing a platform for all the budding young researchers, young investigators to showcase their research and innovation.

Sincerely,

Operating Committee

Genome Editing and Gene Therapy

Conference Highlights

- Human Genetics and Genomics
- Genetic Disorders
- Gene Editing
- Gene Therapy and Genetic Counselling
- Genome Engineering
- Genome Mapping
- Medicinal Genetics

- To identify the future directions of research
- Peer review and high quality publication
- Quality research

London , United Kingdom Attractions

Explore London

London, city, capital of the United Kingdom. It is among the oldest of the world's great cities—its history spanning nearly two millennia—and one of the most cosmopolitan. By far Britain's largest metropolis, it is also the country's economic, transportation, and cultural centre. London is situated in southeastern England, lying astride the River Thames some 50 miles (80 km) upstream from its estuary on the North Sea. In satellite photographs the metropolis can be seen to sit compactly in a Green Belt of open land, with its principal ring highway (the M25 motorway) threaded around it at a radius of about 20 miles (30 km) from the city centre. The growth of the built-up area was halted by strict town planning controls in the mid-1950s. Its physical limits more or less correspond to the administrative and statistical boundaries separating the metropolitan county of Greater London from the "home counties" of Kent, Surrey, and Berkshire (in clockwise order) to the south of the river and Buckinghamshire, Hertfordshire, and Essex to the north.
