MATERIALS SCIENCE AND TECHNOLOGY

APRIL 15, 2020 | MIAMI, USA

Material Technology
2020

Invitation

Materials Technology 2020

Dear Attendees,

Meetings International proudly announces the 14th International Conference on Materials Science and Technology scheduled during April 15, 2020 in Miami, USA. The conference emphasizes the theme “Improving the demand for material science with the assistance of on-going technologies”.

Materials Science and Technology 2019 was one of the most successful conferences in the past and now we again give you people the opportunity to be a part of this conference and share your knowledge cordially, contributing towards the success of the conference in 2020. The MS&T technical program is unmatched, addressing structure, properties, processing, and performance across the materials community. MS&T brings together scientists, engineers, students, suppliers, and business leaders to discuss current research and technical applications, and to shape the future of materials science and technology. MS&T brings together scientists, engineers, students, suppliers, and more to discuss current research and technical applications and to shape the future of materials science and technology.

Sincerely,

Operating Committee

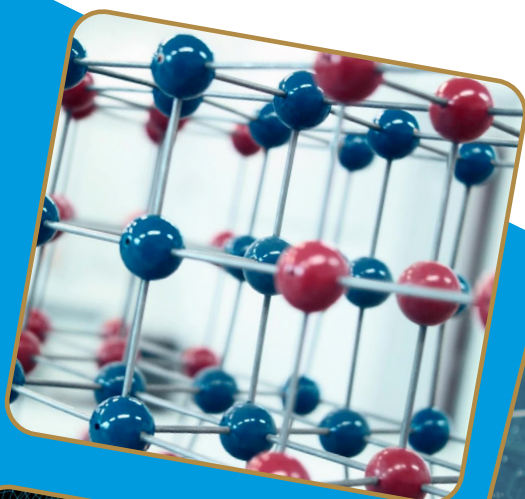

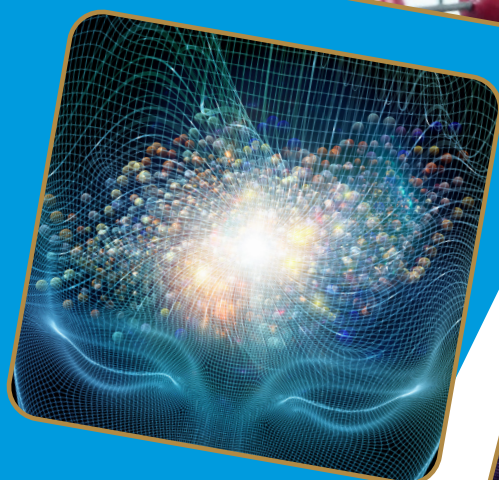

Materials Technology 2020

Conference Highlights

Materials Technology
2020

- Material Science and Technology
- Advanced Materials
- Nano Technology
- Ceramics and Composite Materials
- Metals and Metallurgy
- Bio Materials and Bio Devices
- Materials Chemistry
- Optical materials
- Biosensors and BioElectronic Materials
- Electronic Materials
- Graphene and 2D Materials
- Energy Harvesting Materials

To identify the future directions of research
 Peer review and high quality publication
 Quality research

Head Management/CEO/Manager ■

Dean ■

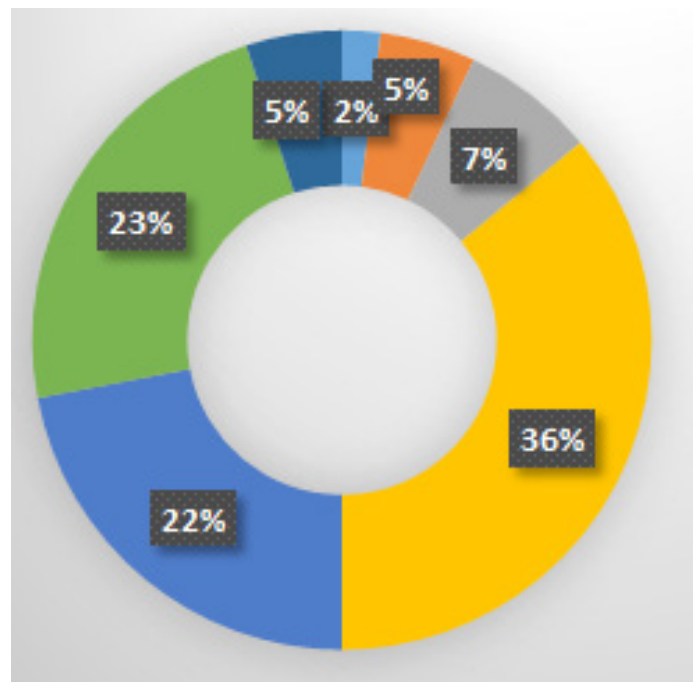

Director ■

Professor ■

Students ■

Research Scholars ■

Business Enterprenures ■

Explore Miami

Miami is home to the world's largest collection of Art Deco Architecture, the majority of which can be found in the Art Deco Historic District. In addition to bright-colored exteriors, chrome accents, porthole windows, geometric fountains, and statues, Art Deco design also centers on whimsical interior motifs including exotic flora, fauna, and decor. The Vizcaya Museum and Gardens, previously known as Villa Vizcaya, is the former villa and estate of businessman James Deering. The early 20th century Vizcaya estate includes: extensive Italian Renaissance gardens; native woodland landscape; and a historic village outbuildings compound. The landscape and architecture were influenced by Veneto and Tuscan Italian Renaissance models and designed in the Mediterranean Revival architecture style, with Baroque elements. Miami-Dade County now owns the Vizcaya property, as the Vizcaya Museum and Gardens, which is open to the public.
