Invitation

Dear Attendees,

Meetings International proudly announces the ***21st International Conference on Materials Engineering and Nanotechnology*** scheduled during ***October 17-18, 2022 at Paris, France*** The conference will bring together leading scientists, early-career researchers to share their perspectives and gather specialists from these interdisciplinary fields to discuss necessary measures needed to develop a new generation of powerful tools for synergistic development in the field of sensors. Through a progression of encouraging plenary talks, inspiring keynote lectures, workshops, industry-sponsored symposia and exhibitions, the conference provides new information about the use of latest technologies and building new links between disciplines enables discussion and new collaborations. We assure our attendees return to their place with the selfbelief to improve their abilities and outfitted with certified approaches to work with us.

Sincerely,

Operating Committee

Materials Engineering 2022

Conference Highlights

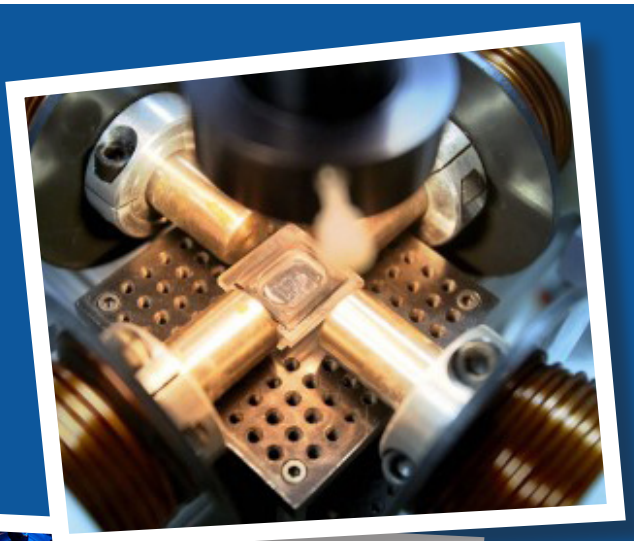
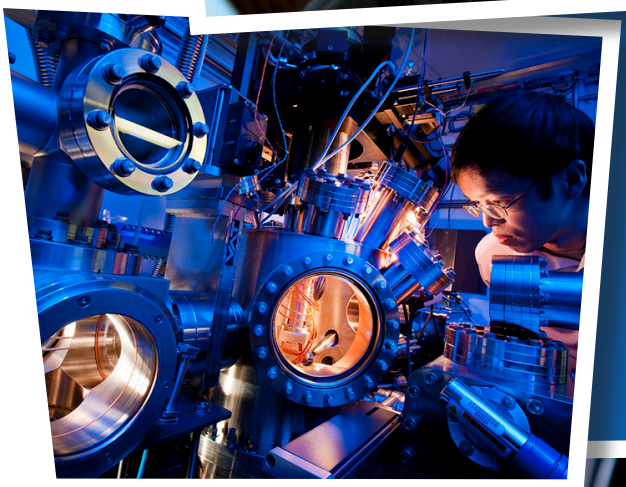
- Advanced Materials Devices
- Advanced Bio-materials and bio devices
- Materials for Drug & Gene Delivery
- Polymer Nanotechnology
- Carbon Nanostructures & Graphene
- Nano-electronic Devices
- Bio Nanotechnology
- Applications of Material Engineering
- Materials for Energy and Environmental technology





Paris Attractions

Explore Paris

Paris is a major European city and a global center for art, fashion, gastronomy and culture. Its 19th-century cityscape is crisscrossed by wide boulevards and the River Seine. Beyond such landmarks as the Eiffel Tower and the 12th-century, Gothic Notre-Dame cathedral, the city is known for its cafe culture and designer boutiques along the Rue du Faubourg Saint-Honoré.

France, in Western Europe, encompasses medieval cities, alpine villages and Mediterranean beaches. Paris, its capital, is famed for its fashion houses, classical art museums including the Louvre and monuments like the Eiffel Tower. The country is also renowned for its wines and sophisticated cuisine. Lascaux's ancient cave drawings, Lyon's Roman theater and the vast Palace of Versailles attest to its rich history.
