

13th International Conference on

Neuroscience Research

May 19-20, 2025 | Rome, Italy

INVITATION

ABOUT CONFERENCE

The “**13th International Conference on Neuroscience Research**”, set for **May 19-20, 2025**, in **Rome, Italy**, will gather leading scientists, neurologists, and professionals to explore the latest advancements in neurology and neurosurgery. The conference will highlight cutting-edge technologies aimed at enhancing patient care and addressing global challenges in these fields. Key topics include genetic pathways in neurological disorders and the application of genomics for novel therapies.

This event provides a platform for diverse participants, including neuroscientists, neurogeneticists, surgeons, psychiatrists, healthcare professionals, and students, to exchange ideas and insights. Attendees will also have opportunities for networking, showcasing products, and connecting with potential collaborators. With a focus on innovation and emerging research, the conference promises valuable updates from world-renowned experts and an ideal setting for knowledge-sharing and collaboration in neuroscience.

YOUNG RESEARCH FORUM:

Meetings International is pleased to announce the Young Scientist Awards for the **13th International Conference on Neuroscience Research**, scheduled for **May 19-20, 2025**, in **Rome, Italy**. Under the theme “Exploring the Latest Advancements & Procedures in Neurology & Neuroscience,” this award recognizes young researchers making impactful contributions to medical science.

The award offers a unique platform for young scientists, including postgraduate, PhD students, and trainees, to present their research, gain recognition, and engage with global experts. Key areas of focus include neurology, neurosurgery, neurological disorders, neuropharmacology, brain tumors, and spine disorders. Award benefits include recognition during the conference, global promotion, networking opportunities, and potential publication in relevant journals without fees. Abstracts submitted will be automatically considered, and winners will be selected by a panel of judges based on content, originality, and presentation quality.

Past Event Report

Meetings International successfully hosted the “International Conference on Neuroscience Research” in Dubai, centered around the theme “Transforming Neurology: Emerging Technologies and Treatments.” The event was a tremendous success, with esteemed keynote speakers from various universities delivering insightful presentations.

The active involvement and generous support of the organizing committee greatly contributed to the event’s success. We would also like to extend our sincere gratitude to all the speakers, delegates, and participants for their valuable time and contributions, which played a crucial role in making the conference a memorable and impactful experience.

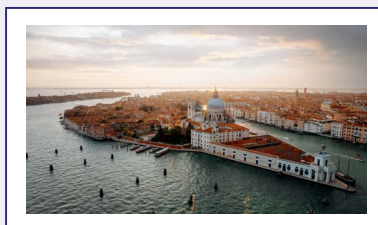

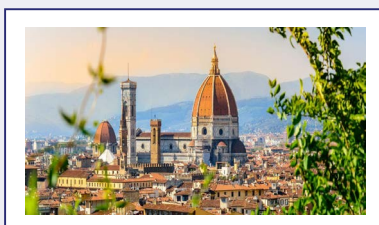

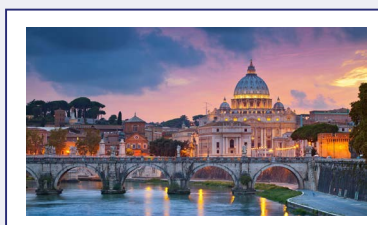

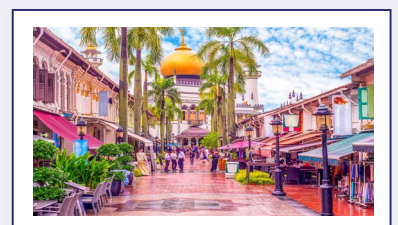

About Venue:

Rome, known as the “Eternal City,” captivates with its rich history, stunning architecture, and vibrant atmosphere. A harmonious blend of ancient ruins, religious landmarks, and modern life, it remains a top destination for travelers. As the third most visited city in Europe, Rome attracts millions with its iconic sites like the Colosseum, Pantheon, and Vatican City.

Famed for its culinary traditions, Rome offers simple yet exquisite dishes like Spaghetti Cacio e Pepe, Carbonara, and Gnocchi alla Romana, showcasing high-quality local ingredients. Visitors can indulge in its rich flavors while exploring the city’s cultural and historical gems. Top attractions include the Roman Forum, Trevi Fountain, Piazza Navona, and Villa Borghese, alongside religious landmarks like St. Peter’s Basilica and Santa Maria Maggiore. Whether drawn by its ancient heritage or contemporary charm, Rome offers an unforgettable journey through time and culture for every traveler.
