5th World

PLANT GENOMICS AND PLANT SCIENCE CONGRESS

Dates: March 22-23, 2021

Venue: Paris, France

Theme: Surpassing the Vision on Plant Genomics and Plant Science

Plant Genomics 2021

We are welcoming you for our upcoming "**5th World Plant Genomics and Plant Science Congress**" will be scheduled in **Paris, France** during **March 22-23, 2021** which includes prompt keynote presentations, Oral talks, Workshops/Symposia, Poster presentations, and Exhibitions. The theme of the conference is around, "*Surpassing the Vision in Plant Genomics and Plant Science*".

Meet your target audience and explore your product and services.

- To Meet Experts
- Learning In a New Space
- New Tips & Tactics
- Certification
- Global Networking
- Rebuild New Customer Base
- Brand Establishment

Abstract Submission

URL: https://www.meetingsint.com/conferences/plantgenomics/abstract-submission

Registration link

https://www.meetingsint.com/conferences/plantgenomics/registration

Conference Highlights:

- Plant Genome Science
- Agricultural Science
- Molecular Plant Breeding
- Stress Signalling in Plants
- CRISPR/Cas9 system in Plant Genomics
- Plant Epigenomics
- Plant Tissue Culture
- Plant Nutritional Genomics
- Plant Biotechnology
- Medicinal and Aromatic Plant Sciences
- Plants and Climate Change- Overcoming Measures

Deadlines:

Abstract submission : **September 14, 2020**

Early bird registration: **August 31, 2020**

Registration closed by: **March 21, 2021**

Plant Genomics 2021

Paris, France's capital is a major European city and a global centre for art, fashion, gastronomy and culture. Its 19th-century cityscape is crisscrossed by wide boulevards and the River Seine. Paris is in the Paris department of the Paris-Isle-of-France region. The French historic, political and economic capital, with a population of only 2.5 million is located in the northern part of France. Paris has a population of more than 2 million people, and the city is divided into 20 "arrondissements" (districts) which are numbered 1 to 20. The river Seine divides the city into the Rive Gauche on the south and the Rive Droite on the north banks of the river. The streets where made much wider, places and squares where built and the buildings completely rebuilt.
