International Conference
On Plant Science

April 22-23, 2022 | Tokyo, United Japan

https://www.meetingsint.com/conferences/nephrology

Invitation

Dear Attendees,

Meetings International proudly announces the *International Conference on plant science* scheduled during *October 22-23, 2022 in Tokyo, Japan*

The conference emphasizes the theme "*Accentuate Innovation and Emerging novel research in plant science*".

The Addiction of plants science Meeting 2022 gathering gives a mind-blowing opportunity to discuss the latest progressions inside the plant science field. The event focuses on aspects like breeding, molecular marker development, crop improvement, disease resistance, epigenetics, evolution studies, and pathology as well as understanding tools to beat barrier and alter flourishing data analysis and management. Displays concentrate not solely specific to plant science however conjointly crop and biological science analysis ranging from wheat, barley, maize, and rice to potato, tomato, Arabidopsis, biofuels and numerous fruits. This conference provides delegates the chance of meeting and interacting with the doctors, students, deans, professors, researches. Addiction Research conference operation committee is providing a platform for all the budding young researchers, young investigators to showcase their research and innovation.

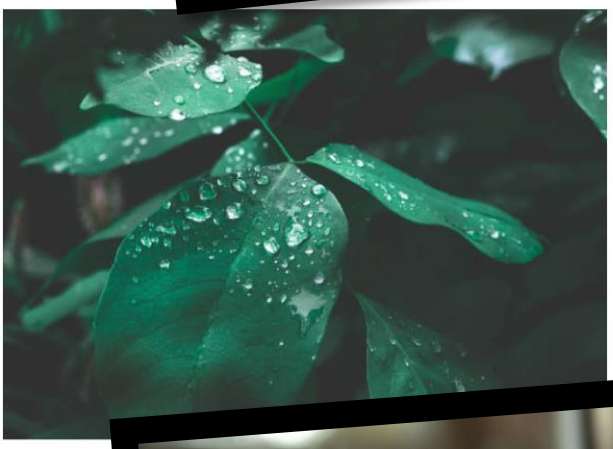
Sincerely,

Operating Committee

Plant science 2022

Conference Highlights

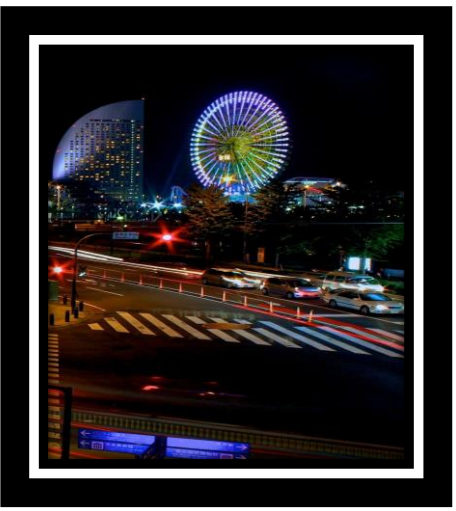
- **Plant ordering Science**
- **Agricultural Science**
- **Molecular Plant Breeding**
- **Stress Signaling in Plants**
- **Plant genetic science and Plant Science**
- **Plant Morphology and Plant Metabolism**
- **Plant organic process Genetic science**
- **Crop Improvement and Plant medicine**
- **Plant Biotechnology**
- **Medicinal and Aromatic Plant Sciences**
- **Plants and Climate Change- Overcoming Measures**



- **To identify the future directions of research**
- **Peer review and high quality publication**
- **Quality research**

Japan Attractions

Explore Tokyo, Japan



Japan is the eleventh-most populous country in the world, as well as one of the most densely populated and urbanized. Japan has been inhabited since the Upper Pala Eolithic period (30,000 BC), though the first written mention of the archipelago appears in a Chinese chronicle finished in the 2nd century AD. Between the 4th and 9th centuries, the kingdoms of Japan became unified under an emperor and the imperial court based in Heian-kayo. Tokyo is Japan's capital and largest city; other major cities include Yokohama, Osaka, Nagoya, Sapporo, Fukuoka, Kobe, and Kyoto. Japan is divided into 47 administrative prefectures and eight traditional regions. The Greater Tokyo Area is the most populous metropolitan area in the world, with more than 37.4 million residents. Japan is an island country in East Asia, located in the northwest Pacific Ocean. It is bordered on the west by the Sea of Japan, and extends from the Sea of Okhotsk in the north toward the East China Sea and Taiwan in the south. Japan is an island country in East Asia, located in the northwest Pacific Ocean. It is bordered on the west by the Sea of Japan, and extends from the Sea of Okhotsk in the north toward the East China Sea and Taiwan in the south. Japan is known worldwide for its traditional arts, including tea ceremonies, calligraphy and flower arranging. The country has a legacy of distinctive gardens, sculpture and poetry. Japan is home to more than a dozen UNESCO World Heritage sites and is the birthplace of sushi, one of its most famous culinary exports
