To identify the future directions of research

Peer review and high quality publication

Quality research

Explore **Rome**

Rome also serves as the capital of the Lazio region. With 2,873,874 residents in 1,285 km^2 (496.1 sq mi) it is also the country's most populated comune. It is the fourth-most populous city in the European Union by population within city limits. It is the centre of the Metropolitan City of Rome. The Vatican City is an independent country inside the city boundaries of Rome, the only existing example of a country within a city: for this reason Rome has been often defined as capital of two states.
