Recycling 2019

ABOUT TOKYO

Tokyo is ranked first in Global Economic Power Index and third in the Index. Tokyo has 39 million residents, 50% more people than any other urban area, with a \$2.5 trillion economy larger than that of any other city; if it were a country, Tokyo would be the 8th largest economy in the world. Tokyo is often referred to as a city, but is officially known and governed as a “metropolitan prefecture”, which differs from and combines elements of a city and a prefecture, a characteristic unique to Tokyo.
