

International Conference on

Biotechnology and Synthetic Biology

August 16-17, 2021 | Berlin, Germany .

Invitation

Dear Attendees,

Meetings International proudly announces the International Conference on Biotechnology and Synthetic Biology scheduled during August 16-17, 2021 in Berlin, Germany

The conference emphasizes the theme "EMPHASIZING LATEST INNOVATIONS IN BIOTECHNOLOGY USING SYNTHETIC BIOLOGY SYSTEMS".

The Synthetic Biology 2021 gathering gives a mind-blowing opportunity to discuss the latest progressions inside the field. It will give an overall stage to look at about the present and future troubles in the society. It aims in bringing up the present and future trends in the field related to the areas of Biosensors, Bio Instrumentation, DNA synthesis, Molecular biology, Gene Therapy etc. The Biotechnology and Synthetic Biology conference is an interdisciplinary event for researchers, practitioners and industry to explain and discuss the most recent innovations, trends, updates and practices in the fields of synthetic biology industry, with strong emphasis on latest innovations towards bioengineering as well as biotechnology. This conference provides a safe and secured global platform for academic institutions, Students, Scholars, Speakers, Delegates to exchange their innovative ideas, thoughts and multiple interests.

Sincerely,
Operating Committee
Synthetic Biology 2021

Conference Highlights

- Biotechnology and Applications of Biotechnology
- Bio Sensors and Instrumentation
- Bio Engineering
- Environmental Biotechnology and Applications
- Microbial Biotechnology
- Synthetic biology for human health
- Systems Biology
- DNA synthesis
- Gene Therapy
- Molecular Biology
- Latest trends in Enzyme Engineering
- Stem cell Technology

- To identify the future directions of research
- Peer review and high quality publication
- Quality research

Berlin Attractions

Explore Berlin

Berlin, capital and chief urban centre of Germany. The city lies at the heart of the North German Plain, athwart an east-west commercial and geographic axis that helped make it the capital of the kingdom of Prussia and then, from 1871, of a unified Germany. Berlin's former glory ended in 1945, but the city survived the destruction of World War II. It was rebuilt and came to show amazing economic and cultural growth. Germany's division after the war put Berlin entirely within the territory of the German Democratic Republic (GDR, or East Germany). The city itself echoed the national partition—East Berlin being the capital of East Germany and West

Berlin a Land (state) of the Federal Republic of Germany (FRG, or West Germany). West Berlin's isolation was later reinforced by the concrete barrier erected in 1961 and known as the Berlin Wall. Its status as an enclave made Berlin a continuous focus of confrontation between the Eastern and Western powers as well as a symbol of Western lifestyle for 45 years. The fall of the East German communist regime and the accompanying opening of the wall—in late 1989 unexpectedly raised the prospect for Berlin's reinstatement as the all-German capital.

VENUE
BERLIN, GERMANY

Important Dates

Early Bird: **April 30, 2021**

On Spot Registration: **June 01, 2021**

Abstract Submission Deadline: **August 16, 2021**
