

6th International Conference on

Vaccine R&D Congress

October 19-20, 2023 | Paris, France

Invitation

Dear Attendees,

Meetings International proudly announces the **6th International Vaccine R&D Congress** scheduled during **October 19-20, 2023 Paris, France**

The conference emphasizes the theme “New Innovations in the field of Vaccines & Immunology”.

Vaccine 2023 train your immune system to create antibodies, just as it does when it's exposed to a disease. However, because vaccines contain only killed or weakened forms of germs like viruses or bacteria, they do not cause the disease or put you at risk of its complications. Vaccine 2023 is a simple, safe, and effective way of protecting you against harmful diseases, before you come into contact with them. It uses your body's natural defenses to build resistance to specific infections and makes your immune system stronger.

Sincerely,
Operating Committee
Vaccine 2023

Conference Highlights

- Vaccine Safety & Efficacy
- Vaccinations for Children
- Vaccines Research & Development
- Cancer Vaccines
- COVID-19 Vaccines
- Vaccinations during Pregnancy
