Paris Attractions

Explore Paris

Paris is the second-largest city in Western Europe, and it is probably the city with the most things to see. The centre of Paris is divided in 20 arrondissements in a sort of spiral with the first arrondissement in the middle and the higher numbers on the outer circle. Most of the arrondissements have their own characteristics.

The majority of the world-known attractions (Eiffel Tower, Champs-Élysées, Louvre etc.) are found in the first 8 arrondissements. If your visit is short concentrate on the main highlights, but be sure you spend at least a day strolling off the beaten path. This is the only way to discover the real Paris - a lively, cosmopolitan but undeniably French city.
