Importance & Scope

The **Global Summit and Medicare Expo on Head & Neck Surgery** is “the world’s best gathering of Head & Neck Surgeons.” It provides an opportunity for thousands of Academy members, non-member physicians, allied health professionals, administrators, and exhibiting companies to converge.

Head and Neck Surgery is one of the oldest medical specialty in the United States. About 35 million people develop chronic sinusitis each year, making it one of the most common health complaints in America and Hearing loss affects one in ten North Americans. They are commonly referred to as ENT physicians. Their special skills include diagnosing and managing diseases of the sinuses, larynx (voice box), oral cavity, and upper pharynx (mouth and throat), as well as structures of the neck and face. Otolaryngologists diagnose, treat, and manage specialty-specific disorders as well as many primary care problems in both children and adults.

Why Atlanta?

Atlanta is the capital of and the most populous city in the US state of Georgia, Atlanta is the cultural and economic center of the Atlanta metropolitan area, home to 5,522,942 people and the ninth largest metropolitan area in the United States. Atlanta encompasses 132.4 square miles (342.9 km²), of which 131.7 square miles (341.1 km²) is land and 0.7 square miles (1.8 km²) is water. The city is situated among the foothills of the Appalachian Mountains, and at 1,050 feet (320 m) above mean sea level, Atlanta has the highest elevation of major cities east of the Mississippi River. Under the Köppen classification, Atlanta has a humid subtropical climate with four distinct seasons and generous precipitation year-round, typical for the inland South. Summers are hot and humid, with temperatures somewhat moderated by the city's elevation.

Head & Neck Surgery

Atlanta, USA November 30-December 02, 2015

Winters are cool but variable, with an average of 48 freezing days per year. Typical of the southeastern U.S., Atlanta receives abundant rainfall that is relatively evenly distributed throughout the year, though spring and early fall are markedly drier.

Atlanta's 343 parks, nature preserves, and gardens cover 3,622 acres. As of 2010, Atlanta is the seventh-most visited city in the United States, with over 35 million visitors per year. Although the most popular attraction among visitors to Atlanta is the Georgia Aquarium, which is the world's largest indoor aquarium. Atlanta has also played a major or contributing role in the development of various genres of American music at different points in the city's history. Atlanta is the place for a large number of medical universities in and around it.

Conference Highlights

- Head and Neck Cancer
- Surgical Approaches in Head and Neck surgery
- Pediatric Head and Neck Surgery
- Neurosurgery
- Hearing Disorders
- Perioperative Care and Anesthesia
- Radiology and Diagnostics
- Laryngology
- Anesthesia and Pain Relief
- Brain disorders
- Facial plastic and reconstructive surgery
- Communication Disorders
- Recent Advances in Head & Neck Surgery

Why to Attend?

With members from all around the world focused on new research innovations in the field of Head & Neck Surgery, this is your single best opportunity to reach the largest assemblage of participants. Conduct demonstrations, distribute information, meet with current and potential customers, make a splash with the new product line, and receive name and recognition in this 3-day event. World-renowned speakers, the most recent techniques, tactics and the newest updates in the field of Head & Neck Surgery are hallmarks of this conference. A unique Opportunity for advertisers and sponsors at this international event :<http://headnecksurgery.global-summit.com/sponsors.php>

Target Audience

- Head & Neck Surgeons
- Medical professors

Head & Neck Surgery

Atlanta, USA November 30-December 02, 2015

- Residents
- Fellowship owners
- Medical students
- Neurologists
- Anaesthesiologists
- Nurses
- Surgical and hearing devices technicians
- Pharmaceutical industries
- Healthcare industries
