## Importance & Scope:

5<sup>th</sup> International Conference on Family Nursing is unique forum to bring to gather worldwide distinguished academics in the field of nursing and healthcare, public health professionals, nurse educators, researchers, nurse managers, physicians, pediatricians and healthcare professionals provides the ideal environment to disseminate and gain current knowledge in the area of family nursing. Nurses and other healthcare professionals will have the opportunity to network with colleagues and exhibitors; discuss best practice research, safety-related outcomes, competencies, and challenges.

This is an excellent opportunity to share your best practice initiative, research project, or provide continuing education as it relates current issues. The conference offers participants breakout sessions highlighting clinical projects, education, and research studies. Nursing is among the fastest-growing fields, and it has a robust job market, which makes it very attractive to people in search of a new or first career. In the U.S., there is an abundance of exceptional nursing programs available, both online and traditional.

## Why Philadelphia?

Once the original capital of America, widely known as Philly, but formerly known as the City of Philadelphia, it is the largest city in the state of Pennsylvania. It is also called the City of Brotherly Love'. Philadelphia is at the centre of it all. It is easy and affordable to get here. Conveniently located in the Northeast United States, the second-most populous city in the East is just 90 minutes from New York City and two hours from Washington, D.C., by train. It holds the following statistics; it is the sixth most populous city in the US, the fifth largest city area by population in the US, the US's fourth largest consumer media market and ranks 49<sup>th</sup> as the most populous city in the world. There are nearly 1.5 million people in the city alone.
